Deaths Decline to 1992 Levels

Latest Preliminary 2002 Pa. Death Statistics show Death Rate Declines back to 1992 levels - Death Rate falls most noticeably in counties in a manner that couldn't be predicted. See the attached data that shows declining death rate for 2000 to 2002. Did US Army under Clinton attack Republican and Democrat Penna. Counties? Pennsylvania surely did safeguard the Constitution. Note: Not since **1968 (Vietnam War)** had the "Crude Death Rate" (deaths per 1000 population) been as high as in 1999 during Clinton's term. Does this mean an Extra 43,668 Pennsylvanians died (Actual dead minus 8 X 122,061) during Clinton years? Double checking my math another way, using the crude death rate increase during Clinton's eight years (Pa. population each year times Crude death rate each year minus 10.2, the crude death rate for 4 years under the first Pres. Bush) gives a figure of 34,982 citizens who died in mostly Republican Counties.

The Lord Told Me Three Times Not To Have Anyone Act Independently to Avenge These Deaths (2 Samuel 4:8-12)

Delaware County Has Declining Deaths As Pres. Bush Makes Difference

Why are more Women Dying?

2002 - 122,061 is preliminary figure

*** My Mother and hunter friend died after 1995 hunting season(1996), then Clinton was reelected.

The Lord Told Me Three Times Not To Have Anyone Act Independently to Avenge These Deaths (2 Samuel 4:8-12)

Death Rate Falls in Penna. by 6.2% in the two years (2002/2000) after National Republicans take over. **Delaware County*** had a REDUCED NUMBER OF DEATHS by 10.31%, Lycoming by 8%, Bedford 21.7%, Fulton 31.2%, Berks by 3.3% while Elk (reintroducing Elk so the environmentalists wouldn't use birth control drugs there) stays the same again! See the below reference. Note that no one disputed the numbers that appeared in the last newsletter that was sent to each member of Pa. Legislature and US Congress. Note newspapers all around the nation talked around the subject, but never addressed it. Deaths increased in some Republican counties when Clinton took office as noted in the last newsletter, and fell significantly in the amazing pattern in PA counties when he left office. Note the most recent DROP IN DEATHS PROVES CLINTON DIDN'T TRUST PENNSYLVANIANS. He realized most of us (Democrats too) might defend the Constitution. Check the web at PA Department of Health, Vital Statistics to confirm this data.

Is this why Democratic leadership contested the Presidential Election in the form of the Florida returns to the Supreme Court? Is this why they spent 40 million dollars to elect Rendell vs. 15 million (which is normal) for Fisher? Were they afraid they'd be brought to trial? Was this why Clinton was almost suicidal in trying to take away guns at the end of his term? Attacking the Second Amendment cost the Democrats Tenn., Arkansas, West Virginia, etc. and, thus, the election.

*Note that Delaware County was among the leaders of the opposition to the idea of a Clinton dictatorship. This opposition climaxed on Veterans Day during Clinton's last year in office. The whole state government of Pennsylvania and 50,000 people came to see the Delaware County Veteran's Day Parade and the USS New Jersey come up the Delaware River. About the same time the Catholics in Delaware County sent a message that appeared to say they couldn't be counted on to support Clinton and the Democrats if Clinton wanted a dictatorship.**Clinton then took his night time walk on the golf course to finally realize he wasn't going to be President any longer.

**This why I think the liberal newspapers turned on the Catholics with such a vengeance in exposing the priests' abuses of children (Of course, priestly abuse of children should NOT have occurred).

Devens Federal Medical Center
Department of Justice
Attn: Mr. Langford
Public Relations Officer
42 Patton Rd.
Devens, MA 01432

27 July 2003

Dear Mr. Langford:

I stopped by the Medical Center on Friday, but since it was late, you, according to an exiting guard probably weren't available for questions.

Since your facility is huge, a half mile by half mile or so, I DID THINK IT WAS STRANGE THE DOORS WERE LOCKED (TWO SETS) WHEN I TRIED TO ACCESS FROM THE MAIN PARKING LOT. DON'T THE PRISONERS HAVE ANY VISITORS OR DO YOU HAVE ANY PRISONERS YET? The prison has been there four years or so and yet it isn't listed on the main Devens Industrial Park map.

To get to the point, I have some questions which should be available under the Freedom of Information Act. These questions are vital to our readers health and safety and your cooperation would be appreciated.

1. Reports of Devens Medical Center being built reached Pennsylvania with the information that it was being constructed for political prisoners. Of course this was being done during President Clinton's term. Is it as rumored and as appearances suggest, a concentration camp or worse, an extermination camp? The two million deer hunters in Pa. want to know.
 2. Why didn't they hire any former Ft. Devens guards who were being laid off? Did they screen the guards they hired for a particular type person? What kind of tests do you take to become a guard there?
 3. Devens is pictured and mentioned in a concentration camp web site along with many other locations in the USA. Is there a network of concentration camps built in the USA during the Clinton years? An army major who witnessed these camps said, "why build them if not to use them?".
 4. A former US Army employee who I interviewed and who drove around inside of the Medical Center during construction, claims it is a concentration camp. Can a brief tour be arranged to prove or disprove his allegations?
 5. An interview published on the Web with a construction worker while Devens was being built said it was a camp for political prisoners. A tour can confirm or expose this as a fabrication.
 6. Medical Centers were used in the USSR for political prisoners whom they labeled as insane. China uses prisoners to export body parts overseas. Obviously a medical center could be used to administer truth serum, etc. to find out where political prisoners hide their financial assets, etc. Do any or all of these uses apply to your Medical Center?
 7. I have video and pictures of the medical center in the building stages. Of particular concern is the industrial style smoke stacks pictured in one of the photos. Are these stacks for a crematorium? I need to inspect them for mechanical means of feeding dead bodies to be incinerated like the Nazi's had at their bigger camps.
 8. Since this Medical Center was built on Federal property, no local building permits were needed. However, I would like to see the plans to judge whether this is a concentration camp or a normal prison. I want a tour to confirm the plans.
 9. Joe Kennedy supported Hitler to a degree, is that why this prison/medical center is built in Mass.?
- Sincerely yours,

Alan A. Loch cc: President Bush, Senator Santorum, Senator Spectre, Congressman Weldon
