

# Garth Fisher, M.D., F.A.C.S.

World Renowned Plastic Surgeon & co-founder of CellCeuticals® Biomedical Skin Treatments.

Doctor Garth Fisher has an enviable appreciation for beauty. He has honed this gift into what many consider the finest plastic surgery practice in the world. His selection of patients is predicated on a remarkable passion for honesty, integrity, and incredible balance of surgical artistry.

As a board certified plastic surgeon with more than 20 years experience, Fisher is included on America's Best Doctors and Top Doctors lists. He is known for his meticulously detailed and natural-looking facelifts with almost invisible scars and is acclaimed as one of America's best facelift surgeons. Fisher was also bestowed the title, "The Enhancer" by Tom Ford, in Vanity Fair's Hollywood issue for his extraordinary reputation as the top breast surgeon in Hollywood.

In all my many years of experience in this field, I have never seen a more impressive collection of before and after patient photographs—all available on his website. Over the years, Fisher has been interviewed countless times by television and print media. He is

recognized throughout the world as the original plastic surgeon with the compassionate bedside manner on ABC's Extreme Makeover. His prestigious and sophisticated international practice is perhaps the most extensive in the world.

In 2007, Dr. Garth Fisher and beauty industry veteran Paul Scott Premo combined their extensive expertise and experience to create CellCeuticals® Skin Care, Inc. CellCeuticals® Biomedical Skin Treatments are the culmination of more than 15 years of protein and DNA research. These revolutionary treatments integrate the latest advances in biotechnology and medical science into extraordinary bio-treatments that target skin aging at the cellular level. Results show visibly younger skin prompting success and overwhelming popularity for the

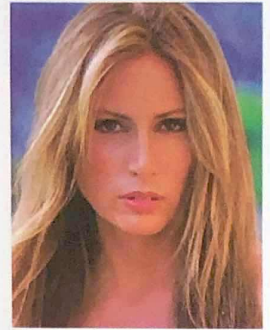

high-performing products. Easy to use, the skin care line is affordable and proven to be ultra-effective by independent scientific studies. This year CellCeuticals® won the prestigious "Cosmetic Innovator of the Year Award" and two Telly Awards for Excellence in Commercial Advertising.

On the topic of facelifts and the reason for developing CellCeuticals, Fisher said, "Think of your skin as a type of fabric. Is that fabric thin, worn-out, or sagging? If I'm going to re-drape your skin, then, like cloth, it should be the best quality; thick, supple and healthy for the

best results. People are surprised to hear that I turn away 40% of those who walk into my office because they are not a candidate for procedures, they have unrealistic expectations, or because their skin is not in optimal condition for procedures. Now, with CellCeuticals®, I'm able to offer a clinically effective skin treatment system for those who are not yet ready for plastic surgery. These revolutionary products can deliver prescription performance, without a prescription."

I've tried numerous skin care lines, and am convinced that CellCeuticals are the only products I will continue to use personally. The nighttime product, CellGenesis™ Regenerative Skin Treatment is exceptional. While sleeping, I know the product is renewing my skin from the inside out. In the morning, my skin actually looks different—more youthful, glowing, and healthy. I've used the products for three weeks and my skin is soft and smooth, with a more radiant appearance. CellCeuticals is a truly amazing!

In 2008, Dr. Fisher created the Biomedical Skin Treatment Institute®, which offers clients a variety of comprehensive medical and aesthetic services. The Institute also provides customized complexion analysis, targeted laser procedures, injectible skin treatments, nutritional analysis,

and CellCeuticals® Biomedical Skin Treatments. Surgery is not for everyone, but non-invasive skin rejuvenation and advanced skin enhancement is available for you at the Institute.

CellCeuticals® skin care products can be purchased at: [www.cellceuticalskincare.com](http://www.cellceuticalskincare.com) or Dr. Fisher's Beverly Hills office. Information and product purchase also available at: 888.695.0335
