

Ursula Wollenberg

My first introduction to painting was with watercolors and I have been using them ever since my high school days.

I have studied art at Evangel University, MSU and the Cleveland Art Institute. I have been teaching and creating off and on for over 35 years. Teaching both children and adult classes. Locally and travel teaching as well.

I enjoy the process of learning new techniques, styles, mediums, and passing that knowledge on to others.

Other mediums I enjoy are acrylic paints, acrylic inks, alcohol inks and mixed media. Mixing them up and using them together is always fun!

I have had my art featured in several periodicals and the most recent was In Somerset Studio magazine, fall 2022 issue. My art has been displayed in a local gallery and other art venues.

On most days you will find me in my home studio or out tending to my flower gardens.
