- This map copy of the cemetery was updated on January 1, 2016. While there are sections in the following that do not appear to make sense, it is noted that certain cemetery sections were never mapped and that this document reflects exactly what the cemetery board had available to work with at the time of this document's creation. The section in the following denoted as 'South Section 17' does not appear to refer to any reasonable location of existing monuments in the cemetery. It appears that the stones in the south east section of the cemetery are not referenced on any mapping available that the board knows of.
