Our STEAM camp introduces students to Science and Technology in the world around them. The integration of Arts/Design with Science, Technology, Engineering and Mathematics makes Camp Success STEAM Adventure, a well-rounded approach to learning.

Join us for 7 Weeks of STEAM Adventure!
You Make It! You Create It! You Build It!

AFTERNOON STEAM COURSES

Students learn from Tech Industry Leaders like Microsoft!

Video Game Development and Design: Students will learn key fundamental game concepts and put them into action to create and customize a playable arcade style game.

Robotics, Physics, Engineering: Students will explore hands - on physics, robotics and engineering concepts.

Digital Animation and Coding: Students will learn techniques to digitize motion and develop an understanding of animation and coding as it applies to the game industry.
