

LISTED BELOW ARE THE ITEMS WE STILL NEED TO FUND. This project has come so far. We have already started saving lives. After the first year the clinic will become more self-supported. Within three years we expect the project to be totally sustainable. Until that happens we need help. Setting up a medical facility is an expensive operation. We get very little from grants, we rely on friends and family, people like you to support our programs. All donations are 100% tax deductible. <https://www.medicforce.org/donate.html>

ITEM (STILL NEEDED AT THE CLINIC)	QUANTITY	Total Price
