

Transparency In Direct Pay Health Care Prices

The 'Transparency in Health Care Prices Act' requires health care professionals and health care facilities to make available to the public the health care prices they assess directly for common health care services they provide. Below are our most frequently billed items. Please note, these are the maximum prices billed for the services below. However many insurers will get billed a contracted rate, as your cost will be determined by your plan's coverage. Therefore, the amount you pay is often likely to be less than the prices listed below. If you have questions about what your cost will be, please call your insurance company directly.

Office Visits/Exam

An office visit includes an exam. The price is based on the complexity of the visit and how much time the provider spends with you. New patient visits are usually longer and more complex than return visits.

Office visit 99213 \$121
Office visit 99214 \$183
Office visit 99215 \$247
Office visit 99204 \$268
Office visit/Consult 99244 \$364
