Staff Reopening Guidelines

J's Barber College Staff will mitigate the threat of communicable disease spread by adjusting the schedules and physical environments to enable CDC social distancing recommendations, and by following the guidelines of the Louisiana State Board of Barber Examiners, as well as the guidelines outlined by the State of Louisiana Office of The Governor and the Louisiana Office of State Fire Marshall detailed @ opensafely.la.gov.

J's Barber College staff agrees to the following employment practices.

- A. Complete and review Infection Control Practices for Barbering
- B. Staff will ensure masks are worn by staff, students, and clients while in the building.
- C. All staff are required to sign a as well as obtain a liability agreement from each student and client.
- D. Check temperature of each student, client, and staff
- E. Pre-screen students, staff and all walk-ins; by asking the following questions:
 1. Have you traveled outside of the country or state in the past 14 days?
 2. Have you experienced any COVID-19 symptoms (fever, cough, trouble breathing) in the past 14days?
 3. Have you traveled out of the country in the last 3 months?

A 14-day waiting period is required for clients answering "yes" to any of these questions
- F. Request clients to wait in their cars or outside until called in for prescreen and/or service.
- G. Provide hand sanitizer application to each client at check-in or before being Seated.
- H. Require students/staff to wash hands with soap & water before and after each client.
- I. Ensure students use freshly laundered and sanitized tools and supplies for each client/service.

Infection Control Reminder

- Follow manufacturer's directions and contact time requirements for disinfectant use and formulations.
- UV Ray sanitizers do not disinfect items, they only keep cleaned and disinfected items sanitized until use.
- Use soap and water to wash your hands whenever possible; do not rely solely on hand sanitizers.
