Information and Consent Agreement for Emotional Support Animal Evaluation and Treatment

Therapeutic Philosophy

This Evaluation and Treatment has both benefits and risks. There are many ways to get an ESA Evaluation for a letter and to receive treatment, by speaking to your Doctor or Therapist. The Initial evaluation will take approximately 45-1hour of your time. The Average is 1 session for ESA Evaluation. ***I cannot guarantee a certain outcome.*** Intended and unintended emotional reactions are a possibility after discussing emotional issues.

After sending your confidential evaluation forms, one of the Licensed Therapists will schedule time (s) to have a phone session(s). They will begin with an assessment of your needs. Next, we will discuss any Issues you are currently experiencing and how your ESA assists you with these symptoms. We encourage you to discuss openly and honestly all of your needs through the process. There are always treatment modalities or medications you could consider. If it is found that you have a Psychological Issue a Psychology Diagnosis will be given and discussed with you, it will be generically described in your ESA letter. We will discuss Treatment recommendations. It is your responsibility to follow through with any recommendations. There may be risks NOT to follow recommendations for treatment; Such as continuing to have your current symptoms without relief. After the session(s), if you meet the qualifications for having an Emotional Support Animal, a letter will be emailed to you.

I am not a crisis intervention response team. If you feel you may need that level of service, **call 911.** Or please go to the closest Hospital ER or call **1-800-273-8255 for a Suicide Hotline.**

Confidentiality

I abide by the laws and ethical principles that govern privilege and confidentiality. I will not disclose to anyone anything you tell me, nor even the fact that I have spoken with you without your written consent by way of a signed release of information form. These are some exceptions to this standard:

1. It is legally required of me that I act so as to prevent harm to you or to others when there is “clear and imminent” danger of that happening. Evidence Code 1024 permits breaking confidentiality when a client’s mental or emotional state is such that this person presents a danger to self or others, or property of others.
2. Civil Code 43.92 states I must take reasonable steps to warn an identifiable victim, the police of an intended crime. I have a duty to Protect and Respond to threats learned from family members.
3. I am legally required to report cases of ongoing child, elder, and disabled abuse.
4. I may have to release your records when ordered to do so by a court subpoena. However, I will discuss this with you beforehand and request written release from you if I judge this to be in your best interest.
5. Clinicians consult with colleagues about their work at times. Or have office staff that review your information or for training purposes. Your information would be kept confidential and protected.

Any additional forms start at \$75. Paid separately, NOT included in ESA Evaluation.
