

FrontPack - Download and Usage Guide

Step 1

Download **FrontPack** from the iPhone App Store by searching for "FrontPack."

Open the app and **register for a free account**. Hit Register and enter your preferred email and password.

The screenshot shows the FrontPack app's login and registration interface. At the top is the 'frontpack' logo. Below it is the text 'Login or register'. There are two input fields: one for 'username@gmail.com' and another for a password represented by dots. Below the password field is a link that says 'Forgot your password?'. At the bottom are two buttons: a green 'Login' button and a grey 'Register' button.

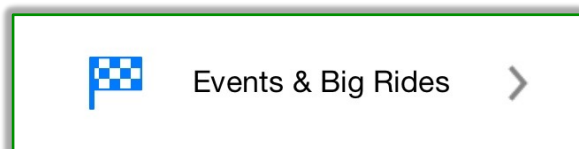

Step 2

Choose a Route.

Routes are categorized by type, and automatically sorted by distance.

Tour of Minnesota should be the first result in "Events & Big Rides."

Select your route. Click **View on Map** to see it live, complete with tour stops and user photos pinned along the way.

Step 3

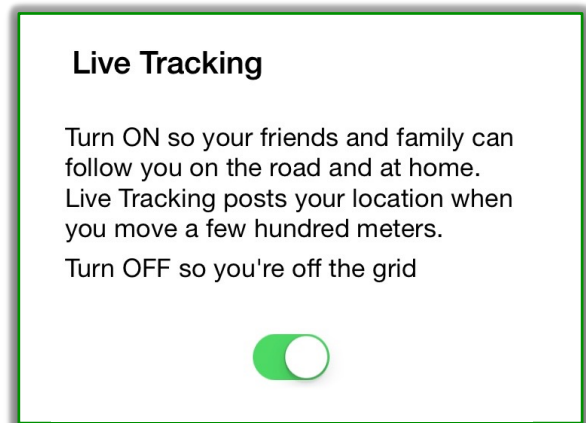

Turn on Live Tracking.

Live tracking beams your location to let friends follow you on your travels.

If ride leaders turns on live tracking too, you'll never lose the herd!

Flip that switch to the **ON** position.

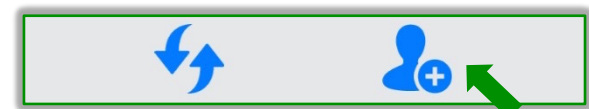

Step 4

Add your friends and ride leaders.

Go to your sidebar; then to Friends.

Click "Add Friend" then "Invite in FrontPack." Search for "Bob Lincoln." Select his name to send an invitation to connect.

Your friend will now appear in Pending requests. Once they accept your invite, they'll appear Accepted.
