 Info./can't make meetings? - contact Play Director Paul Deaner 218-353-7509.

Covid Update: Lake County Resident Dies & New Mask Information

By Kitty Mayo

The Centers for Disease Control and Prevention announced last week the easing of mask guidelines for people who are fully vaccinated, permitting the ability for those people to choose to not wear a mask outdoors in crowds and in most indoor settings.

Minnesota Governor Tim Walz followed with the ending of the mask mandate in the state. State health officials do recommend that people who are still not yet fully vaccinated either get the vaccine, or continue to wear a mask.

- Health care settings continue to require masks be worn by everyone. Greg Ruberg, CEO/president at Lake View Hospital & Clinics says the mask requirement is staying in place at all of their sites. This includes the Lake View Hospital, Clinic and Pharmacy in Two Harbors, and the Silver Bay Clinic.

“The reason for keeping masks in place for now is that we have immuno-compromised individuals in the buildings, and we are not going to be checking to see who is vaccinated. Wearing a mask protects everyone,” said Ruberg, adding, “We still recommend that people who have not been vaccinated continue to wear a mask in public.”

- Schools and child care facilities continue to require masks.
- Businesses and entities have the right to make their own decision on whether they will require masks. Be prepared and

have a mask with you as you check for signs at individual businesses.

- The Lake Superior School District will have held their first in-school vaccination clinics for students in Two Harbors and Silver Bay by the time this article goes to press, and the second clinic for the final vaccine dose is scheduled to be completed for students in the last week of the school year.

- “Win” \$50 each for bringing together your vaccination team of at least 20 people. Lake County “Cross the Finish Line” program will come to you to vaccinate your team, and everyone will not only get \$50, but have the potential for a \$250 team bonus. Contact Tracy Gilsvik at (218)834-8406, or tracy.gilsvik@co.lake.mn.us.

- Lake County Vaccine Hotline: This number still remains active and public health officials will help those who call connect to the opportunity for a vaccine. That number is: (218)834-8434. There is no cost for getting the vaccine, even for those who do not have insurance.

Cook County has reached about 79% of the population over the age of 16 vaccinated with at least one dose, and has the highest vaccination rate in Minnesota. However, in the previous week they added eight new cases testing positive for Covid-19.

Lake County has reached a total of 811 positive Covid-19 cases. This past week there were two new Covid-19 related hospitalizations, and another resident of Lake County has died from Covid-19.
