

YOUTH IN TRAINING

Dear Parents:

Welcome to Youth-In-Training at ETS – a program, where we help teenagers become mature, responsible, secure adults. Our goal is to provide opportunities for positive growth, productive relationships with peers and adults while encouraging a desire for lifelong learning. Services available for participation include:

1. Self-esteem/Self-image workshops
2. Financial Literacy
3. Willingness to help others/volunteerism
4. Identification of educational goals
5. Entrepreneurship
6. Career Exploration
7. Cultural & Performing Arts
8. Writing/Poetry
9. Meeting community and school/ role models

Young adults need support and guidance in order to become the best person he or she can be. We recognize this, and would like to help make the teen years a memorable and rewarding experience. We believe that everyone benefits when children become secure, responsible, mature adults.

We offer two 12-week sessions during the academic school year and one 6-week session during the summer. Students receive a stipend at program completion. We look forward to working with you and your child. Please, feel free to contact us at any time to discuss the program.

Sincerely,

Youth Coordinator
