Domestic Cat Management

December 22, 2014

The Virginia Animal Control Association supports the protection of the public and cats as companion animals. It is the position of the Virginia Animal Control Association that all cats are entitled to the provisions and protections afforded under the Code of Virginia § 3.2-6503. The Virginia Animal Control Association supports each locality's efforts to manage and control cats and recognizes such management may include, but not be limited to; shelter services, adoption, fostering, rabies vaccination, licensing, identification of owned cats, and community cat programs, provided such programs include ongoing care for cats, in accordance with law.
