Re: Dogs on the Property

---

We would like to reiterate to all residents the privilege is granted to walk dogs on property grounds, but there are rules that need to be followed as well.

**Pet owners must ensure the proper removal of dog waste from property grounds. Unattended dog waste is unsanitary and a health hazard.**

**Dogs being walked need to be leashed at all times. And they cannot be left tied up unattended outside at any time.**

Violators of the rules will be fined in accordance with the outlined fine policy.

We strongly urge that if you see a violation take place, please contact The management company at 617-221-1000. Details are important: where, what time, what color/type of dog, how many people, etc. *All calls are kept strictly confidential.*

We appreciate everyone working together to keep the grounds clean and safe.
