BS-610-A	Double stacked or boiler base steamer water filtration system	\$ 1,040

Counter Models: CS-35-A

Floor Models: BS-610-A

** Proper filtration minimizes limescale and corrosion which will extend the life of your steamer. Replacement cartridges and ScaleSticks will usually last 4-6 months depending on water quality in your area. Periodically pressure gauge and clear ScaleStick bowl inspections will confirm replacement schedule for each cartridge and/or stick.*

Model	Description	List Price
SS-10-A	ScaleStick replacement	\$ 163
CC5-10-A	Countertop steamer replacement cartridge	\$ 47 each
CC5-20-A	Double stacked or boiler base model steamer replacement cartridge	\$ 73 each

Filter cartridge replacement records must show scheduled 6-month & maintenance history to maintain warranty.

Limited Second Year Warranty - complete details on page 30 of the Price Book

The limited second year warranty covers these water related parts: Solenoids, probes, elements, high limit & preheat thermostats, atmospheric generator & pressure boiler shells, high limit controls. All other failed parts will be the owners responsibility. Second year warranty is limited to parts only, labor not include, as long as the prescribed preventative maintenance is followed.
