

Mini workshop (Clairelyse Touchon April 2011)

Greeting cards to match a quilt

Orig-

Material needed:

Scraps of fabric

Wonder-Under or Steam-A-Seam

Blank greeting cards

Step one

Following the manufacturer's directions, apply the Wonder-Under to the back of the scrap of fabric you want to use on your greeting cards.

Step two

Fussy cut the picture you want

Steps three and four

Remove the paper backing and place the picture on the blank card.

Step five

Iron the picture on the card. Avoid steam as this may cause your card to buckle and watch the orientation of the design.

Step six

Add text with a calligraphy pen or draw slashes and dots around the design. Be creative at this point. Anything goes!
