TW TECH WEST INC.

ECO VAC DRY VAC SYSTEMS

The Eco-Vac Dry Vacuum system from Tech-West Inc is the premier choice for dentists and hygienists. For over 30 years the Eco-Vac Dry Vacuum has helped users reduce their carbon footprint and increase their bottom line by providing energy efficient, water saving technology at a great value. The Eco-Vac Dry Vacuum is built to last and is backed by our industry leading 5-year/5000 hour warranty. Units are proudly made in Fresno CA. by our dedicated team of technicians and are delivered completely ready to install.

We utilize a Variable Frequency Drive (VFD) to control the vacuum levels. With no suction being used, the motor is running one third the speed and using very little power. Every time a suction hose is being used the motor automatically speeds up to maintain constant suction. Maintenance free unit with no traps to clean, no oil to check or change. Truly a ZERO maintenance machine.
