

FREE Workshop for Small Water Systems

Compliance with the Safe Drinking Water Act

November 29, 2021: 12:00pm – 4:30pm

November 30, 2021: 8:00am – 12:30pm

ONLINE ONLY

AWWA/RCAP is offering a **FREE** two-day workshop on compliance with the Safe Drinking Water Act (SDWA), with focus on Systems Management.

The Workshop will cover the following topics:

Day One:

AWIA and Small Systems Resilience

- AWIA requirements for systems serving more than 3,300 persons
- Review the RCAP/AWWA Small Systems Risk & Resilience Assessment (RRA) Worksheet
- Describe how to conduct an effective RRA in the field
- Identify gaps in your Emergency Response Plan
- Identify strengths and weaknesses in your system's risk mitigation practices

Source Water Protection

- Explain the importance of source water protection
- Use your state's source water assessment program (SWAP) to evaluate your source water protection needs
- Apply strategies and tools to improve protection of drinking water sources
- Identify the key components of a source water protection plan (SWP) plan
- Communicate with the public to inform and engage them in source water protection efforts

Day Two:

Asset Management

- Why Asset Management is becoming more important in the water/sewer industry
- The five core questions that form Asset Management
- Basics of beginning and implementing Asset Management
- Integration of Asset Management into the culture of everyday operations
- Hurdles and obstacles and how to overcome them

Who Should Attend?

Who Should Attend? **Managers, Superintendents, and Operators of Small Drinking Water Systems**

Continuing Education

Content for this workshop is approved for operator continuing education approval by the *Maryland Department of the Environment*, and *Delaware Office of Water, Advisory Council for the Licensing of Certified Public Water System Operators*.

8 hours of contact time is scheduled but you must register for both sessions.
