

# Water Loss Control

## Optimizing Performance & Accessing Funding to Improve Small Systems

**December 7 & 8, 2020**

**9:00 AM – 12:00 PM**

These sessions will be conducted online, and CEU's provided for certified operators as well as Professional Engineers.

### Day 1 – Water Loss Control:

- Water Loss Challenges for Small Systems
- Defining Non-revenue Water
- Using AWWA's Water Balance and Free Water Audit Software
- Understanding Production and Customer Metering Losses (Apparent Losses)
- Controlling Leakage (Real Losses)
- Calculating your losses and controlling them

### Day 2 System Optimization and Accessing Funding:

- Overview of the AWWA Partnership for Safe Water Programs
- How to conduct a self-assessment in order to optimize your operations, including: General Management/Administration, Finance, Asset Management, Source Water Protection and Distribution System Operations
- How to apply for low interest funding through the USDA. (a representative from your local USDA office will present this information and answer any questions you may have)

### Who should attend:

- Municipal Officials (engineers, clerks, treasurers)
- System Board Members
- Operators
- Consultants who work with small systems
