

NFL Lineman Drew Iddings volunteers his time to help coach campers at Pro football Camp.

PRO FOOTBALL CAMP'S SCHOLARSHIPS PROGRAM HELPS IMPACT CAMPERS' LIVES

Every year Pro Football camp makes a lasting impact on hundreds of kids from Colorado Springs and the surrounding area. Over the course of the three-day camp, campers learn football and life skills, for both on- and off-the-field pursuits. This camp is unique because the participants will be working with real NFL athletes. The goal of the camp is not only to make the kids better all-around football players, but also to help make them better people off the field. The current and former NFL athletes will teach the kids proper techniques for every position so that they can become better, more versatile players. The NFL athletes will be reinforcing key life lessons that will help campers beyond football three times each day with “Off the Field with the Pros” sessions. Hearing real stories about real NFL athletes teaches campers lessons about integrity, courage, discipline, respect, and hard work. The kids are taught that even in the worst situations, hard work can ensure they become whatever they want. Pro Football Camp is more powerful than just football because it gives campers the tools to be successful outside of football—after all, the game is the easy part.

Every year, Pro Football Camp looks for sponsors to support their scholarship program to help underserved kids attend camp who would not be able to do so otherwise. Pro Football Camp wants to make a lasting impact on as many kids as possible with the scholarship program. By funding scholarships, sponsors are investing in the players and citizens of tomorrow.

The NFL athletes at the Pro Football Camp have impacted more than 2,000 kids over the camp's 11 years. The following are testimonials from parents of Pro Football Camp participants throughout the years:

"The camp was very positive, it reinforced everyday life ethics (work hard, do your best), and taught that you have to work toward what you want. The camp pushed the kids to their physical limits, thank you!! They are more aware of what they CAN do instead of what they THINK they cannot." - Darell & Davetta, Parents

"It's fun. My son was so inspired by the coaches and the Pros. He woke me up early every morning eager to get to camp. It's like he was 'thirsty' for this kind of leadership in sports. He is a better athlete and most importantly a better person because of this camp." - Ceci Anderson, Parent

"Sign your child up because this camp not only teaches correct football skills, but also teaches great life lessons. That no matter where they come from they should set their goals high and dream big because they can make it into the NFL too." - Karen, parent

Maverick Wilson is a great example of a scholarship recipient who benefitted greatly from Pro Football Camp. Maverick went to the camp for four straight years and eventually became a volunteer for Pro Football Camp. "Pro Football Camp has made an enormous impact on my life. It taught me all the fundamentals that I used on my high school football team. Pro Football Camp has also taught me the characteristic skills to be a successful team leader like integrity, respect and perseverance." - Maverick Wilson

For the past 11 years, the Pro Football Camp featuring NFL players has created an amazing, motivational experience for kids in the Colorado Springs area. If a parent is looking for a fun, inspirational camp that teaches the game of football as well as life lessons, this is the camp to be at!
