

# Beginning Visions

145 Huffine St, Gibsonville NC, 27249  
beginningvisions.com T: (336) 449-4070

Dear Parents,

Spring has finally arrived! That means warmer weather is finally here! Flowers are beginning to grow and fully bloom just like our Beginning Vision's kids. This month we encourage parents to take your child outside more. Take them for walks through the neighborhood and help them learn comparing sizes. Ask them questions like: which mailbox is taller? Which driveway is longer? And which house is bigger?

We have so many fun activities planned for the month of April, including the celebration of Easter. Beginning Vision's will be closed **April 7<sup>th</sup>-April 9<sup>th</sup>** out of observation of Good Friday and Easter. On **April 10<sup>th</sup>** Beginning Vision's will celebrate National Sibling Day. If you would like your picture taken for next month's newsletter, be sure to wear matching colors with your brother or sister. If you do not have a sibling find a friend to match with! We hope to see many pairs, trios, and quartets!!

For more information on Center Closures and Spring Festivities we have planned, please check in with your child's teacher or the front office! We are so excited for this season and look forward to more time spent outdoors enjoying nature and each other!

## Upcoming Events & Birthdays

### April 1

Ms. Heidi's Birthday

### April 5

4yo Field Trip to the Library

### April 7

BV Closed for Good Friday

### April 9

Happy Easter

### April 10

National Sibling Day

### April 12

Mrs. Shannon's Birthday

3yo Field Trip to the Library

## Mr. Robbie's Joke of the Month:

Question: Why couldn't the flower ride a bike?

Answer: Because it lost it's petals!

We love springtime at Beginning Visions! After a cold winter, we are so eager to get outdoors and enjoy our outdoor play spaces! This past month we practiced building chicken coops, made some wind socks and learned about forces of nature, played outdoors with our friends and learned about recycling by making our very own recycling center! We cannot wait for all the fun to come this month!

Spring is such a fun time to get creative. One way you can do this is to use household products. An example is colorful bubble art. Try adding a few drops of food coloring to either bubble solution or dish soap and water. After dipping your bubble wand into the solution blow the bubbles onto a sheet of card stock or construction paper. Some the students also used fly swatters to paint abstract art! Simply pour paint into pie pans or trays and dip the fly swatter in. Then, get to swatting!
