

## Level 2: HTML Code Needed

```
h1{font-family:Optima;
    text-align:center;
    color:white}
h2 {font-family:Optima;
    text-align:center;}
h3 {font-family:Optima;
    text-align:center;}
h4 {font-family:Optima;
    text-align:center;}
div {background-color: #ffb90f;}
body {background-color:#228b22;}
```

### Level 3: Python Code Needed

```
answer=input("Do you consider yourself a competetive person? ")
```

```
if answer=="Yes":
```

```
    answer=input("Wonderful! What type of competition is your favorite? Answer - sports,  
    spelling bees, or coding ")
```

```
        if answer=="sports":
```

```
            print ("Wow! Personally, I love to swim!" )
```

```
        elif answer=="bees"
```

```
            print ("Ok!! So no need for a spell check, then?")
```

```
        elif answer=="coding":
```

```
            print ("Do what you love!!")
```

```
    else:
```

```
        print ("Oh I don't either! ")
```

```
answer=input ("Do you prefer trophies or medals? ")
```

```
if answer=="trophies":
```

```
    print (I love putting them above my fireplace! )
```

```
else:
```

```
    print ("I love having them around my neck! ")
```
