## DRY PIT PUMPING EQUIPMENT

Horizontal and vertical mounted centrifugal pumps for sewage lift stations, raw sewage pumping, sludge pumping, trash pumping, clean water booster applications and self-priming pumps.

## POSITIVE DISPLACEMENT PUMPS

Netzsch provides both progressive cavity pumps for viscous material, such as digested sludge, sludge feed pumps and rotary lobe pumps for sludge as in slurry that contains high solids content or entrained air.

## VERTICAL TURBINE, MIXED FLOW AND SCREW PUMPS

Propeller and mixed flow pumps for storm water, flood control, irrigation and effluent pumping. Vertical turbine pumps for low service, high service and water booster systems Archimedes screw pumps.

## CHOPPER PUMPS

Engineered Pump Inc. provides pumps designed for demanding applications where fluids latent with waste products clog conventional shrouded, open and vortex impellers.

## SUBMERSIBLE PUMPING EQUIPMENT

Sewage lift stations, grinder pump stations and storm water pumping equipment, 1/3 HP thru 1400 HP. Complete prepackaged fiberglass enclosed lift stations and grinder pump stations for low pressure sewer systems. Submersible mixers for various applications throughout WWTP and wet wells.

## PACKAGED PUMPING STATIONS

USEMCO provides above and below ground water booster stations, valve vaults and meter vaults; flooded suction, below grade sewage lift stations and above grade vacuum primed sewage lift stations.

## SELF-PRIMING PUMP SYSTEMS

Pioneer Pump provides engine driven, skid mounted and trailer mounted self-priming pump systems.

## CONTROLS

From simple level and pressure control systems to variable speed drive systems to basic telemetering to fully integrated SCADA systems. We also offer automatic telephone dialing alarm systems by Sensaphone.

## STAINLESS STEEL SLUICE AND SLIDE GATES

Golden Harvest offers a complete line of high quality sluice gate and water control equipment, including sluice gates, flap gates, weir gates, channel gates and stop logs of stainless steel construction.

## VALVES

Silent check valves, tilting disc check valves, rubber flapper check valves, foot valves, butterfly valves, surge check valves, air release valves and plug valves. Automatic control valves consisting of pressure reducing, level control, back pressure, surge relief and surge anticipating.

## FIBERGLASS COVERS

Fiberglass covers for trickling filters, clarifiers, aeration tanks sludge tanks and water reservoirs.

## ODOR CONTROL

The VAPEX odor control system with its patented air atomizing three-fluid nozzles enhance the Advanced Oxidation Process by creating hydroxyl radicals (OH), the most potent oxidant used in odor treatment.

## UV DISINFECTION

Enaqua Non-Contact UV disinfection system using short wave length UV energy in lamps contained separately from the water to neutralize harmful microorganisms.

## SERVICE

Flow-Technics, Inc. is a complete factory authorized repair service center which also offers vibration testing, flow testing and flowmeter certification, laser alignment, service and maintenance contracts and confined space permitted procedures.

## MANUFACTURERS

## EPIC INTERNATIONAL

## FLOWAY® PUMPS Vertical Turbine Pumps

ITT

Authorized Distributor

## NETZSCH

## ROSS VALVE 1875

SENSAPHONE®  
REMOTE MONITORING SOLUTIONS
