SPORT PILOT TRAINING SYLLABUS R5 9/27

LESSON 12: Solo Cross Country Flight

TIME: 2-3 hours solo cross country flight

OBJECTIVE: To have the student safely complete a solo cross country flight. To have the student prepare a personal limitations checklist which will include the pledge to always land with 90 minutes of fuel reserves.

NEW LESSON ITEMS: Obtain an unassisted weather briefing, plan a cross country flight, and conduct a solo cross country flight.

COMPLETION STANDARDS: The lesson will have been successfully completed when the student can properly plan and complete a solo cross country flight. The CFI will have a post flight oral to critique to flight.
