## Future Improvements at Interstate 4 and County Road 532 Interchange

The Florida Department of Transportation (FDOT) and Osceola County are coordinating on designs for improvements to the Interstate 4 (I-4) at County Road (C.R.) 532 interchange. Osceola County designed plans to reconfigure C.R. 532 to a diverging diamond interchange (DDI). The project will also add bike lanes and sidewalks along C.R. 532 to improve bicycle and pedestrian connectivity and safety. FDOT is constructing the project, which is anticipated to begin in summer 2021.

1

The intersection of ChampionsGate Boulevard and Goodman Road will be reconfigured. This intersection will restrict movements from northbound Goodman Road to right turn only onto eastbound ChampionsGate Boulevard.

2

The interchange will be converted to a diverging diamond interchange (DDI), which is safer and more efficient. In a DDI, left turns from C.R. 532 onto I-4 will no longer cross in front of oncoming traffic. This change reduces the number of signal phases, allowing more traffic to flow through the interchange per cycle.

3

The westbound I-4 exit ramp will be expanded to four lanes to provide dual right and left turn lanes onto C.R. 532.

4

The eastbound I-4 entrance ramp will be expanded to three lanes to accommodate dual left turns and a single right turn from C.R. 532.

5

The eastbound I-4 exit ramp will be expanded to three lanes to provide dual left turn lanes onto westbound C.R. 532 and a single right turn lane onto eastbound C.R. 532.

6

The westbound I-4 entrance ramp will have two lanes to accommodate single right and left turn lanes from C.R. 532.
