## Segway LED Tail light Kit

Kit Number: 1747600001

### Contents

· Multi-Function LED Tail Light

### Tools Required

· None

### WARNING

Riding a Segway Human Transporter (HT) in the dark, even with a lighting system, is an inherently dangerous activity. In order to ride your Segway HT safely, you must be able to clearly see the area in front of you so that you can avoid obstacles, slippery surfaces, loose materials, signs, tree branches and other low overhead dangers, and other potentially hazardous conditions that could cause collisions or falls. Hazardous conditions that are visible in daylight will not be as visible after sunset, even with a headlight. If you cannot clearly see the area in front of you, you should not ride your Segway HT over it. If you ride after sunset, use a familiar, well-lighted route. Always wear a helmet.

Also, you must be clearly visible to motor vehicle drivers and others. When you ride after sunset, wear reflective clothing and display lights visible to the front, sides, and rear. Segway recommends that riders use both a headlight and a red indicator light that is visible from the sides and rear, either mounted on the Segway HT or on the rider.

Some states and municipalities specify the lights that Segway HT riders must use when riding after sunset. Be sure to check local laws.

Because of the increased risk of injury, only experienced, adult riders should ride after sunset.

### > INSTRUCTIONS

Clip the taillight on the rider so that it is visible from the rear and to both sides. Suitable locations are a belt, collar, backpack or other rear facing position that is not obstructed from view. Operate light according to the instructions provided in the LED Tail Light box.

**LIMITED WARRANTY** The Segway LED Tail Light Kit an accessory covered by the Segway™ Human Transporter Limited Warranty (copy delivered with this kit).

### Questions?

If you are missing a part, or if you have any questions, please contact Segway Customer Service at 866.4SEGWAY (866.473.4929) or [www.segway.com/support/contact\\_us.html](http://www.segway.com/support/contact_us.html).

Thank you.
