

IMIC Inc Clinical Research
18320 Franjo Rd (aka SW 97 Ave)
Palmetto Bay FL 33157
PH: 786-310-7477, FX: 786-536-9016
www.imicinc.com

IMIC Inc. Clinical Research began in 2009 as a dedicated research clinic in cooperation with 2 physicians. We are recruiting from a large population in Miami-Dade county – Larger Miami – around 2.6 million people. **Now after contracting more physicians our Principal Investigators' practices have active database of over 32,000 patients.** The research department has access to electronic searchable databases by billed diagnoses, so we are able to run searches for specific patient populations. We also maintain a research patient database of patients expressed a wish to participate or former participants in clinical trials in numerous diagnoses of around 1400 subjects.

We have easy access to outside services as Radiology, Ultrasound, DEXA, Echocardiograms, CT, , PET-CT, MRI and GI procedures such as colonoscopy or upper endoscopy. **Our site uses only Central IRBs and there are no other committees that need to approve any study.** We are proud of very fast turnaround of regulatory documents and contracts of 1-2 weeks.

Our center works with the following therapeutic areas:

- ❖ Child and adolescent Psychiatry
- ❖ Pulmonary
- ❖ Gastroenterology
- ❖ Family Practice
- ❖ Internal Medicine
- ❖ Endocrinology
- ❖ Adult Psychiatry
- ❖ Pediatrics

Our Principal Investigators:

- Evelyn Lopez Brignoni MD – Child and Adolescent, and Adult Psychiatry
- Miguel Rodriguez MD – Gastroenterology
- Ramon Leon MD – Family Medicine
- Ramon Guevara DO - Pediatrics

Our research experience includes the following (not a complete list):

- Allergic Rhinitis
- Hypertension
- Crohn's Disease
- Hyperlipidemia
- IBS
- Ulcerative Colitis
- ADHD
- Opioid induced constipation
- Diabetes type 2
- Chronic Constipation
- Low back pain
- Vaccine Trials
- COPD
- Migraine Headaches (Adult and Pedi)
- Liver Cirrhosis
- Fibromyalgia
- Obesity
- Alzheimer's disease
- Device Trials
- Osteoarthritis
- Bipolar disorder
- Diabetic Neuropathy
- Overactive Bladder
- MCI due to AD
- GERD
- Depression
- Gout
- Type II Diabetes
- Asthma

Our staff includes:

- ❖ 6 FT Coordinators (1 is a RN's and 2 are Certified CRC)
- ❖ 1 FT Financial & Regulatory Administrator
- ❖ 1 FT Lab Tech/Research Assistant
- ❖ 1 FT Office Assistant
- ❖ 1 FT Clinical Research Manager
- ❖ 1 PT Patient Recruiter
- ❖ 1 Pharmacy technicians
- ❖ 1 Certified ARNPs as Sub-Investigators
- ❖ 3 Physicians as Sub-Investigators

Our facilities have the following:

- 4 patient exam rooms
 - Controlled access, double locked, temperature controlled drug room
 - Video monitoring
 - Monitor areas (wired and wireless capability)
 - Lab area for processing and sending samples
 - Ambient Centrifuge
 - 2 ECG Machines

 - Dry ice delivered weekly (IATA certifications maintained)
 - Electronic Min/Max thermometers for all areas with email alerts- dataloggers
 - 2 Refrigerators,
 - 2*-20° freezers
- Spirometry equipment
 - Vital signs equipments
 - Defibrillator and emergency medicines with Oxygen
 - Refrigerated centrifuge
 - Yearly calibration of equipment
 - Patient waiting area with amenities of 12 hour spirometry or PK samples
 - Weight scales
 - I-stat equipment for express blood gas analysis
 - Oximeters
 - Incubator
