Protein is essential for the body. Limited diets or poor digestion may not get the full amount of amino acids from their diet. In contrast to free-bound amino acids, our Ultra Amino Source Vitamins contains all 9 essential amino acids in their superior free-form state and in the proportions recommended by the National Academy of Sciences to support protein synthesis and tissue repair for adults age 19 and over. Amino acids are the building blocks of protein and are found in all of the body's solid material. They are found in all organs, blood and skin. Amino acids also make up enzymes, and vitamins and are essential for a healthy immune system and proper neurological functions.

HOW I-LIPO WORKS

Low level lasers have been utilised as effective treatments in fat reduction for several years. The i-Lipo low level lasers are released through the treatment pads, triggering a chemical signal in the fat cells that breaks down stored triglycerides into free fatty acids and glycerol, which are released through the cell membranes.

Fat content is then transported around the body to tissues where it will be "burned off" during a period of post-treatment exercise. Exercise creates a demand in our bodies for extra energy.

The body responds to this demand by releasing stored fat content to be used as fuel, but the release can come from anywhere in the body. Through the use of low level lasers, i-Lipo mimics the body's natural fat burning process, allowing you to target an area of your body for fat release even before you begin exercising.

In Loving Memory Of...

Andres Dubuk

September 21, 1925 - December 14, 2019

Andres Dubuk

Andres Dubuk was born on the 21st of September 1925 in Hlukhy, Volynskaya Oblast, Ukraine. He was the eldest sibling to Eustaquio, Juan and Maria. Due to political unrest, Eustaquio Dubuk, Andres' father, and the family sailed to South America in 1937, with proceeds from the sale of their land. The ship first came to port in Buenos Aires then continued up the Parana River to Paraguay, where the family temporarily lived in barracks built by the Paraguayan government.

The family eventually settled in Colonia Fram where Andres was finally able to attend school for the first time, in 1938/39. Unfortunately, his schooling was short lived as his mother soon died and he took over mom-duties in the home. Eventually, Andres' father re-married and had two more children, Ana and Basilio.

In 1948/49, Andres moved to the city of Carmen del Parana to find employment. Later in 1949, he moved again, but this time to Buenos Aires, where he found work in upholstery. In 1966, Andres began the process immigrating to the US and the family finally arrived on August 24, 1970, where they lived temporarily in Anatoli Kozaczuk's home, who had immigrated a number of years earlier. Shortly afterwards, they rented a home in Burlingame and finally, in 1972, purchased their own home in San Mateo where they have lived ever since.

Andres was a caring husband, a hardworking father, and a supportive member of the Slavic church in San Mateo, where he attended until his struggle with pancreatic cancer began in April of 2019. He remained courageous and faithful to the Lord these past eight months. Andres enjoyed many visits and farewells from friends and family, both in person and over the telephone, and even traveled to both Pine Mountain Lake and the wine-country one last time this past summer. He was blessed with 94 years of life and is survived by two sisters, his wife of sixty-two years of marriage, two sons, three daughters, 4 grandchildren and 2 great-grandchildren.
