

OSSEO GUN CLUB IDPA

LOW LIGHT SUMMER MATCH

WHAT

IDPA is the use of practical equipment including full charge service ammunition to solve simulated real world self-defense scenarios using practical handguns and holsters that are suitable for self-defense use. The main goal is to test the skill and ability of an individual.

The complete rulebook is available at IDPA.com.

REGISTRATION

This match will be run with a traditional squad based format. Practiscore pre-registration is required to guarantee a spot; if squads are full and you did not pre-register, you will not be able to shoot the match.

\$20/shooter. SSP, ESP, REV, CDP, CCP, BUG, CO, PCC allowed.

Registration before the match, as well as scoring after the match, can be found at: https://practiscore.com/clubs/osseo_gun_club_idpa

WHEN

Sunday, 2019/07/14

12:00pm	New Shooter Orientation
12:30pm	Setup & Registration Begin
1:00pm	Shooting Begins
4:30pm	End of Match

New shooters are required to attend orientation at 12:00pm before shooting.

STAGES

This match will have 4 stages. Each string of fire will be 18 rounds or less, but stages may have up to 24 rounds minimum in them.

Accordingly to IDPA rules, you may only have 2 (or 3 for BUG/REV) magazines on your belt, but it is recommended you come to the firing line with 1-3 extra magazines in your pockets, especially for those of you shooting CCP/BUG/REV.

This may seem cumbersome, but it will allow shooters to maximize trigger time and minimize overall total time invested.
