

Getting Started with Health & Safety

The following points cover the start of your H&S journey within your organisation.

1.	<p>Read the HSE Toolbox; How to control risks at work</p> <p>http://www.hse.gov.uk/toolbox/index.htm</p>
2.	<p>Start to understand your H&S needs</p> <p>http://www.hse.gov.uk/getting-started/index.htm</p>
3.	<p>There are various training courses on the market that will provide more detailed knowledge regarding H&S. These include;</p> <p>ROSPA https://www.rospa.com/safety-training/work/</p> <p>IOSH Managing Safely (general workplace) IOSH Directing Safely (general workplace) https://www.iosh.co.uk/Training/IOSH-training-courses.aspx</p> <p>CITB Site Managers Safety Training Scheme (SMSTS for construction) CITB Directors Role for Health and Safety (DRHS for Construction) https://www.citb.co.uk/training-and-courses/find-a-site-safety-plus-course/</p>
4.	<p>Get Competent Advice, if you are unsure of what you need to do or you feel that you do not have the knowledge or skill to manage H&S in your workplace.</p> <p>https://www.oshcr.org</p>
	<p>Other sites that may be of use;</p> <p>Business benefits http://www.hse.gov.uk/guidance/topics.htm</p> <p>Range of topics http://www.hse.gov.uk/guidance/topics.htm</p> <p>Chemicals and Substances http://www.hse.gov.uk/coshh/index.htm</p> <p>Safety climate tools and training for high risk environments https://www.hsl.gov.uk/home</p>
