

NEW PRODUCT RELEASE

ADandD.com Pop-Link® Mounting Systems by ADandD.com

Pop-Link® Mounting Systems by ADandD is pleased to announce two new products to Keyence Combatable List; [The System 1 Bracket](#) and [The Scanner Enclosure](#).

A simple way to mount the newest Keyence Multi-Dimensional Vision System CA-DQP25X with a camera all on one setup. This System Bracket, **PL-SYS1** gives you a 10 inch range to mount your camera above the light. It is made up on anodized aluminum, stainless steel mounting plate with stainless steel fastens. The PL-SYS1 is only compatible with our HDPL Series. Hardware for the HDPL-BALLBASE is included, but the HDPL-BALLBASE is not included.

Most importantly, the PL-SY1 can be a cost reduction to your mounting needs by eliminating the design work out of crafting a mounting system. The HDPL Series offers several different products that can be combined to mount the PL-SYS1 for any application.

Convenient and Flexible – A Simple Mounting Solution!

Introducing
**THE
SCANNER
ENCLOSURE**

Part No, SEPL-1

The **Scanner Enclosure**, SEPL-1 is another great addition to The Enclosure Series. The **SEPL-1** is an IP68 rated enclosure that will mount the Keyence SR750, SR752, SR1000, SR2000 scanners. The SEPL-1 is compatible with our HDPL Series.

The SEPL-1 is made of anodized aluminum with stainless steel fasteners. The Enclosure Series is only compatible with The HDPL Series. Our HDPL-BALLBASE mounts directly to the back of the enclosure, although it is not sold with the SEPL-1.

Mounting Made Easy ... *Pop-Link® Mounting Systems!*
