

Phenomenal Lavender

This Lavender is touted as being the best variety for the Mid-Atlantic Region. It is cold hardy without the winter dieback that other lavenders suffer from. It has very good tolerance to heat and humidity and resistance to diseases. Lavender is a good four season plant, remaining evergreen throughout the year. This plant is a good nectar source for butterflies and bees. There are many culinary uses for lavender lending a sweet, floral flavor.. Medicinally, lavender is used extensively to soothe insect bites, burns and headaches. It is reportedly useful as a sleep aid and for relaxation among other things.

HIGHLY USEFUL PLANT
