

(Reno, NV) The Spa Atlantis has transformed into a World Class Spa featuring some of the most elite treatments and ancient rituals, in an environment rich in earth colors, textures and harmony. The Spa at Atlantis is a place for personal rediscovery, solace, and healing.

The unveiling Spa-Atlantis secrets to the public in February 2009 has exceeded all expectations .....

Woody Yowler, a consultant who helped with the spa's design, describes the mission in one word: journey.

he said. "Here, we've combined the entire concept into one journey for the client."

There are men's and women's changing rooms, complete with steam rooms, saunas, private showers and lounges providing fruit, snacks and widescreen TVs.

There's the Laconium Relaxation Room where, Yowler explained, robe-clad clients can prepare for treatment by kicking back on lumbar-pleasing tiled benches with radiant heat amid 90- to 100-degree temperatures.

The 15 treatment rooms are varied, depending on a client's desire for assorted peels, wraps, scrubs and milk, salt or seaweed baths, as well as massages.

There are three "couples" suites with a tub, twin therapy and iPod-ready tables and steam baths.

There's the brine inhalation therapy room, with fiber-optic starry sky ceiling, a 24 percent salt solution waterfall dispersing salt aerosol and ever-changing lights. It's "absolutely tranquil," Yowler said.

And it all culminates at the Aqua Lounge with three pools of hot, medium and cold water. When that's over, it's into the "experiential" overhead shower, where the spray can be set to thunderstorm (with hay/fresh flower scents), tropical rain (citrus), waterfall and ice/fog (with accompanying foghorn).

---

The Spa Atlantis has raised the bar for resort spas in Northern Nevada. From the moment you step through the doors your senses awaken to the natural rhythm of nature's most calming gifts. The stone, the water, the warmth, the cool, the soft, the scent, the breath, the earth, the heavens.

The 30,000-square-foot Spa Atlantis is part of the \$75 million renovation at the Atlantis.

Numinus is honored to enhance the ambiance with celestial ceilings and chromatherapy lighting in four separate areas of the Spa Atlantis. This is a showcase destination for our products. (I believe worthy of a tax write off to experience) There are two StarDomes™, The Oval de Bain, and the 6' Rotunda, a ceiling full of StarTiles™ in the Brine Therapy Room, and custom built / custom programmed RGB LED lighting system in the Aqua Lounge....

### **laconium relaxation lounge**

Heated lounges, a heated floor and a captivating water feature soothe the spirit without taxing the body. Mild temperatures, cooler than a steam room, allow you to relax and enjoy for longer periods of time. The Laconium stimulates circulation, purifies and detoxifies the body, while reducing stress, your heartbeat is stimulated and blood pressure regulated. The result: a feeling of freshness, and deep mental and physical relaxation.

## Brine Inhalation Therapy Room

*Inhalation surrounded by light  
illusions brings the climate  
of an ocean shore.*

Surrounded by soothing music a waterfall of Brine cascades over decorative stones, creating beautiful crystals and magical colors. While resting on the heated tile bench, your senses will be stimulated, both psychologically and physiologically by the specific colors reflecting over the water cascade. The ambience and inhalation of salt aerosols positively affect the respiratory tract to increase well being. Experience what Europeans have appreciated for decades as the color wheel rotates through the spectrum.

White - **Refreshing**  
Amber - **Calming**  
Blue - **Soothing**  
Green - **Peaceful**  
Red - **Motivating**

A wellness therapy taking you to new worlds and unimaginable experiences.

## healing waters of the aqua lounge

Taking of "the waters."  
Ancients worshipped it. The elite have been reveling in elaborate baths for centuries. Today we now understand the health benefits associated with dramatic changes in water temperatures. Your journey begins in the soothing environment of our Jacuzzi® pools which combine muscle relaxing jets and alternating warming temperatures designed to refresh tired muscles and relax the body.

## The Rasul Ceremonial Chamber

This signature body treatment provides the ultimate in luxury, an experience reminiscent of the ancient bathing treatment of royalty. The Rasul may be experienced solo or with a partner.

- ***the terra sigillata rasul ceremony***
- Generously apply six healing muds during the ceremony while the chamber is being filled with gentle herbal steam. Feel the special caring properties of each mud as a mask is created over the entire body. The ceremony ends with a brief tropical shower. The results, skin with a silky glowing finish.
- *50 Minutes, Single or Couples Experience*
- 
- ***bali paradise rasul ceremony***
- A refreshing, relaxing skincare mask for all skin types recommended for dry, sensitive skin. Freshly blended fruits and a customized blend of oils create a mask over the entire body. The aromatic infused steam will send you into a deeply relaxed dream-like state.
- *50 Minutes, Single or Couples Experience*
