

# MC-11T

## MOBILE COMBO TRANSIT MIX PLANT

### SUPERIOR DESIGN

228 CU YD/HR PRODUCTION\*  
RELIABLE OPERATION  
HIGH QUALITY CONCRETE  
CONSISTENT BATCHES

### RUGGED CONSTRUCTION

FAST SETUP/TEARDOWN  
UNITIZED CONSTRUCTION  
LOW ERECTION COST  
BUILT TO TRAVEL

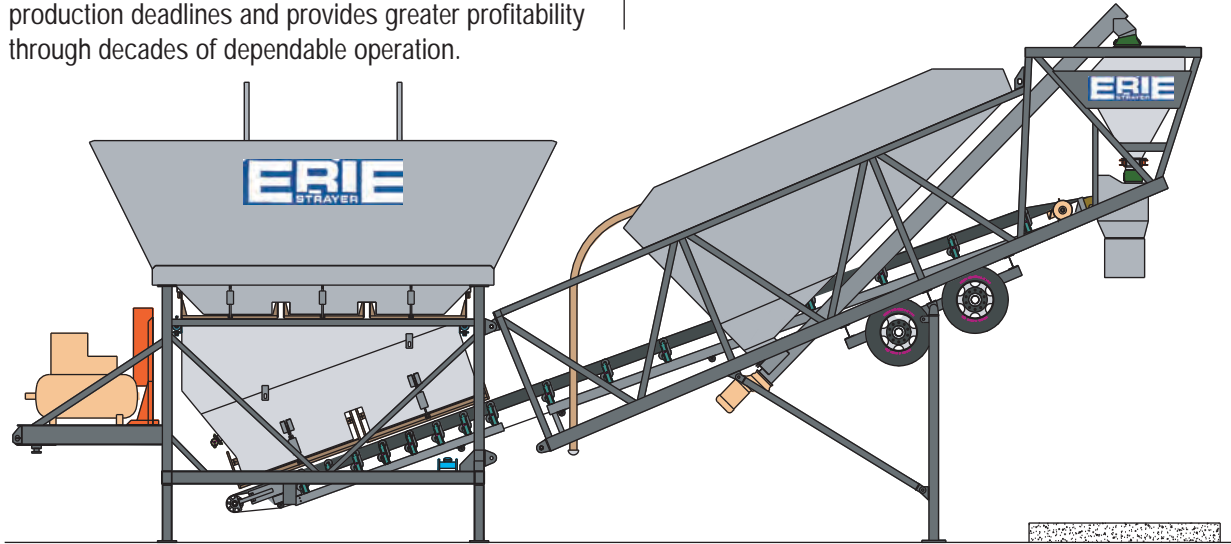

- The **ERIE MC-11T** Meets All The Demands Of Today's Fast Moving Concrete Construction Challenges
- The Heavily Constructed Travel Frame Is Designed To Reduce Mobilization Costs And Setup Times
- Plant Operations Personnel Find Quick Access To All Plant Operations And Components
- Project Supervisors Count On The **MC-11T** For Mobile, Dry Batch Concrete Construction Projects

# MOBILE COMBO TRANSIT MIX PLANT

The **ERIE MC-11T** delivers the best in a high production mobile transit mix plant. Tight factory specifications are designed and manufactured into every plant for rock solid reliability. The **MC-11T** moves quickly, meets all production deadlines and provides greater profitability through decades of dependable operation.

## MC-11T

### BASE CONFIGURATION\*\*

- Mobile plant travel frame
- 20 cubic yard three compartment aggregate bin
- 12 cubic yard aggregate batcher
- Load cell scale system
- Test weight hangers
- Silent rotary turbine vibrator
- 30" batch transfer conveyor
- 20 HP Dodge TXT 415 shaft mount reducer
- 300 bbl in-truss cement bin
- 4" air loading pipe
- 10" screw conveyors (2)
- 12 cubic yard cement batcher
- Load cell scale system
- Test weight hangers
- Silent rotary turbine vibrator
- Truck charging chute
- 3" Badger electronic water meter
- 10 HP Ingersoll-Rand air compressor
- 4 ½ HP aeration blower
- Plant motor control panel
- Manual control panel

### OPTIONAL FEATURES\*\*

- 10 cubic yard batchers
- Fourth aggregate bin compartment
- 80 and 100 cubic yard aggregate bins
- AR-400 steel and **Erithane** bin and batcher liners
- 36" batch transfer conveyor
- 12" screw conveyors
- 300 bbl mobile auxiliary cement/flyash bin
- Additional 4" and 5" air loading pipes
- Anti-overfill valves
- Electromagnetic flow water meter
- 15 - 30 HP air compressors
- Plant maintenance platforms
- Screw jack and outrigger support structure
- ERIE Scout computer control system
- Hydronix **Hydro-Probe II** microwave moisture system
- Total in-plant wiring, piping and plumbing
- C&W dust collection systems
- Fold and Tow bin charging conveyors
- Aggregate ground hoppers
- Automatic aggregate handling panel
