Hospital TV Emulator for Healthcare

Control Samsung Hospitality TV's with a Pillow Speaker

Part# - HTV Emulator-1

Patent Pending

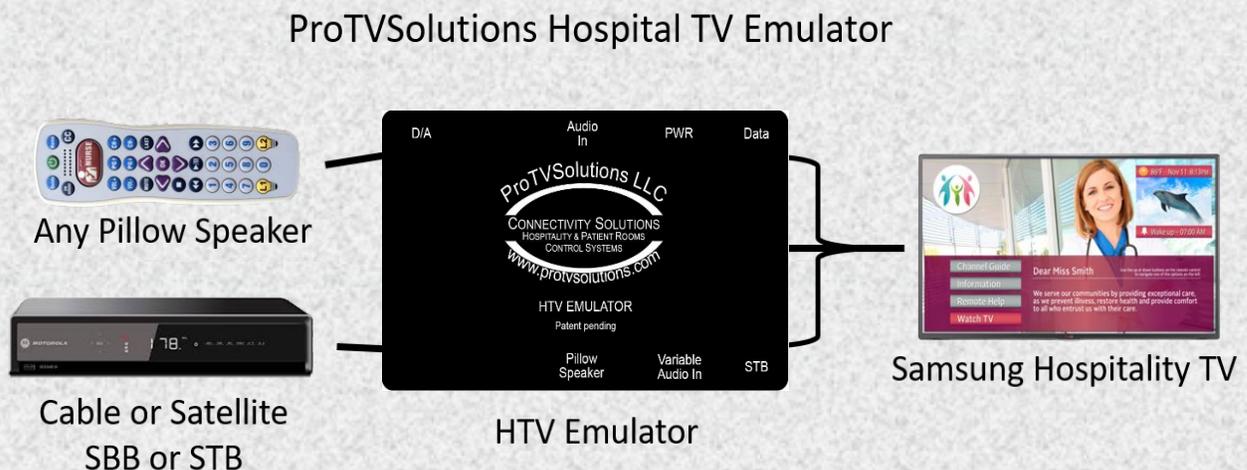

Key features

- Allows for less expensive hospitality TV's to be used with pillow speakers
 - Compatible with many Samsung hospitality grade TV's
 - Supports SSCP TV protocol, with direct wired connection
 - Supports analog audio from the TV, either fixed or variable audio outputs
- Compatible with all major pillow speakers*
 - Works with Curbell, Anacom-Medtek, Crest and others
 - Supports Samsung, Zenith, Philips, and Pro:Centric** pillow speaker protocols
 - Supports healthcare system integrator's pillow speakers**
- LG STB-5500 and Catapult set top boxes can also be controlled by pillow speakers
- Does not require troublesome IR Blasters for TV or Set Top Box
- No external power supply necessary, powered from the TV***
- Only 2.2" x 3.8" x 0.7" in size, easily mounts to the back of the TV
- Very low-cost solution

* Pillow speakers must be able to support digital signals, and have a minimum # of buttons to be useful

** Some keys may not be supported with standard product, but can be added if necessary.

*** Some TV models might need an external power supply.
