

1st Choice Before and After School Kare (A.S.K.)

www.1stchoiceask.com

We wanted to answer some of the most common questions asked with the program.

Question:

Do we still get billed when there is no school for a certain days in each month?

Answer:

The regular rates for Before Care are \$14.00 per day and \$22.00 per day for the after care. We prorate and **discount** the monthly fees according to the days children are in school and days they are out in accordance with the school's calendar (171 days). We also add in 5 emergency closure days for each year. If the five days are not used we do not come back and charge you, they are a bonus to you. If there are more than 5 emergency closure days then we will adjust and give you credit for the coming month. If this happens in May and there are no coming months, we would issue a refund.

The reason for the proration is so you can budget and we can budget instead of charging different rates each month with no consistency. By prorating the discount and charging the same amount each month, it helps us budget for staff as well as all the hired specialty activity instructors as well. Remember, we will never send a note home asking for any additional fees for special events or tutoring with your children, as this is included in your monthly fees.

Question:

Will there be before care or after care on early release days?

Answer:

Yes, there will be before care... if it is offered at your school.

No, there will not be after care.

Question:

Will there be before or after care during scheduled days off / Holidays?

Answer:

No. Again, we follow the school's calendar. Most parents find a local day care provider or switch off with neighbors.

Question:

Will there be a Winter, Spring Break or Summer Camps?

Answer:

Very strong possibility according to if we get enough students enrolled by a certain date. Flyers will come out well in advance. Location will be in Loveland and posted on the flyer.

Thank you, and as always, feel free to email us with any questions you may have.

(Regular Rates \$22.00 per day)

	Avg. Daily Rate p/child	Monthly Fees	Monthly Totals	Avg. hrly rate
1 st Child	\$18.00	324.00 =	\$324.00 per month	\$6.00per hour
2 nd Child	\$15.00	275.00+324.00 =	\$599.00 per month	\$5.55 per child

4 th Child	\$9.00	162.00+758.00 =	\$923.00 per month	\$4.27 per child

Question: Why are my monthly installments the same rate every month when some months have less school days than others...Thanksgiving, Christmas and Spring Break, etc.? Note, we discounted rates in anticipation of 5 emergency closure days for things such as snow, fire, evacuations etc. We will not charge extra if there are not 5 closure days that is a bonus to you.

Answer: There is an average of 171 school days with all schools we service. 171 school days divided by 9.5 months = 18 days per month average. 18 days per mo. x \$18.00 per day = \$324.00 per month. Prorating the monthly fees the same each month helps us keep the price down by not having to pay a person to micro manage every child's account every month.
