

FAUX TETRAD OF 2021-2022

The purpose of this illustration is to depict the May 26, 2021 to November 8, 2022 Blood Moons that will occur several times, mainly in Scorpio and Taurus. What is perhaps Astronomically Significant about these 4 Blood Moon is not a 'True Tetrad'. Only because the 2nd Blood Moon is 97% Total. Nonetheless, this study will suggest that this Celestial Nexus is a Sign for Israel. And an ominous one as Blood Moons are considered Bad Omens by the Old Jewish Sages. This study suggests that Israel will enter the final Sabbath Week of Daniel to be tested of its resolve and to refine it as it will be for that purpose during the Tribulation Period. As to a prophetic meaning then? Realize that the Eclipses always occur in Pairs. You have a Solar Eclipse and usually within 14 days later, there will be its accompanied corresponding Lunar Eclipse. What the 2nd Blood Moon signaled had to do with the Sign of Noah's Year, 600. That is the year of Noah's life when the Ark was completed. The 2nd Blood Moon was the longest in duration and had not occurred in nearly 600 years. Coincidence? Then the 2nd Solar Eclipse occurs in the South Pole, in Scorpio. Some have interpreted this depiction as being associated and Predictively Programmed through the Occult Short Film called I Pet Goat 2, which depicts the Debut of the AntiChrist.

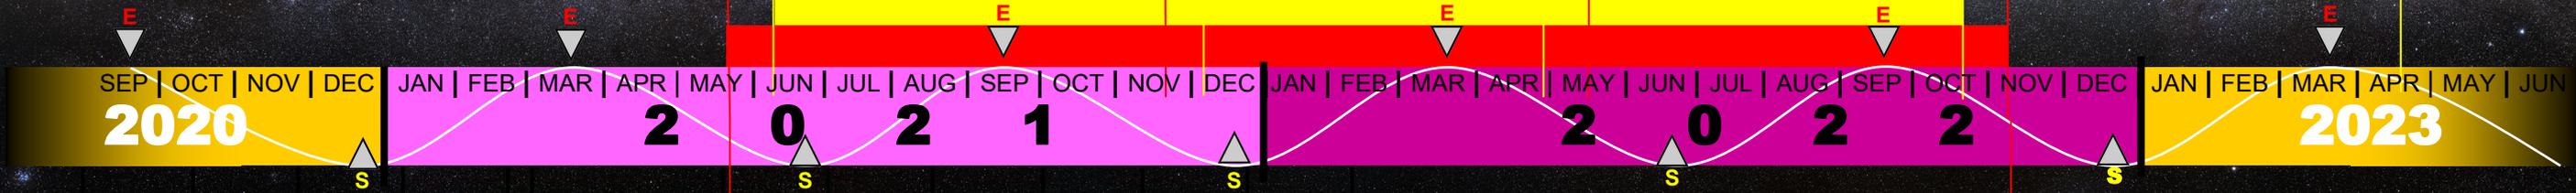

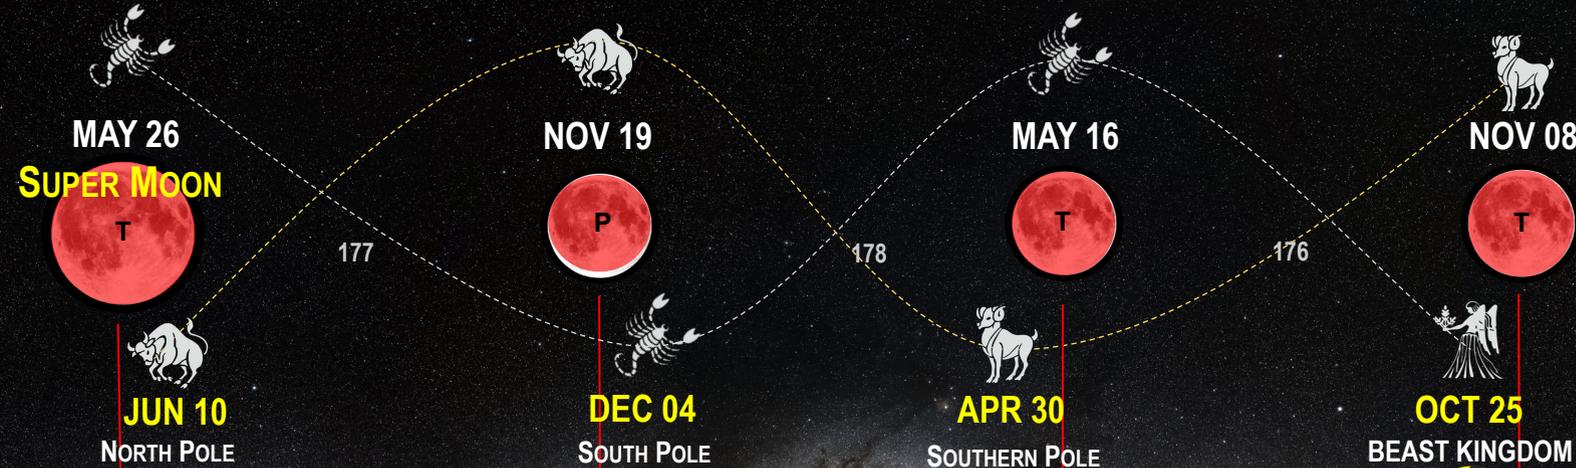

SOLAR ECLIPSE SERIES

- 2021 Jun 10 Annular Taurus
- 2021 Dec 04 Total Scorpio-Conjunction w/Mercury
- 2022 Apr 30 Partial Aries
- 2022 Oct 25 Partial Virgo-Conjunction w/Venus

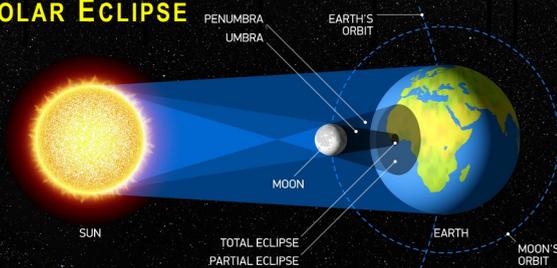

The last Blood Moon of the Tetrad that concluded in 2015 was a Super Moon. It also occurred on the Feast of Sukkot or Tabernacles. And now this pseudo-Tetrad of 2021-22 starts off with a Super Moon? Coincidence? Perhaps but one could see a possible symmetry and continuation of the 'Storyline' that is being 'signaled' in the Sun, Moon and the Stars.

This study, in comparing the prior 4 Blood Moon series, suggests that the 2014-15 Tetrad was more so a Celestial Sign for the Body of Christ. How so? Consider where the Blood Moons took place then. In the 2014-15 Tetrad, the 4 Blood Moons occurred alternatively in Virgo and Pisces. These 2 Signs are directly associated with the Church Age. So, what specifically were they 'saying' or 'announcing'? One conjectures that the message was to put the Body of Christ on notice that the last Sabbatical Cycle of 7-years was to occur ending with the Rapture. Fall 2015 to Fall 2022. And then that the transition or translation back to the Dispensation of Israel would occur. In contrast, this 'Israeli Tetrad' occurs more than once in Scorpio, Taurus and Aries. These are the Celestial Signs of the 'Enemy, Sacrifice and Slaughter' that suggests a coming 'bloody' Crucible that Israel will have to go through.
