

**NOW THAT YOU HAVE SEEN THE MOVIE “WAR HORSE”,
HELP SAVE AMERICA’S HORSES FROM SLAUGHTER.**

- Every year over 100,000 US horses are sent to slaughter for human consumption in Europe and Asia.
- Horse slaughter is not humane nor is the meat safe for human consumption because of the medications we give our horses.
- 92% of the horses slaughtered are young, sound and healthy horses.
- Slaughtered are family pets, race horses, show horses, sold at auctions, bought from Craigslist’s thru deception — all for blood money.
- Horse slaughter will be paid for with your tax dollars.

It’s time to give our horses the protection they deserve and stop slaughtering them.

**EVERY 5
MINUTES**

**An American Horse is
Slaughtered for Human
Consumption.**

STOP THE SLAUGHTER

*“In this day, people don’t have exposure, they don’t have interaction with horses. I hope this movie [War Horse] makes people appreciate the innate and natural intelligence of **horses**. And I also hope this movie brings an awareness to the plight of horses both after World War I and the plight today in a very sad turn of events in which the slaughtering of horses is being permitted for food as a renewed export industry, which makes us all very sad.”*

- Steven Spielberg

WHAT CAN YOU DO? Contact the White House 202-456-1111 and ask the President to issue an Executive Order to ban horse slaughter and the transport of US horses to slaughter, then call your Senators and Representatives 202-224-3121 and ask them to pass S. 1176 and H.R. 2966.
