

LUNAR TETRAD PATTERN

LUNAR TETRADS SINCE 1AD RELATED TO THE NATION OF ISRAEL

The purpose of this illustration is to ascertain the pattern of Lunar Tetrads since Christ as it relates to Israel's history during these specific periods. Many believe that 1948, the year of Israel's declared statehood is dramatically marking-off a most significant prophetic event in modern history. It pertains to the possible convergence of Biblical prophecy. This period of 2015, in particular could be the start of the eventual fulfillment of the Last 7-Year period 'Week of Weeks' prophesized by the Prophet Daniel. This is only as some interpret End-Times scenarios and of Jesus Christ's 2nd Coming thereafter - "the Stone" that was rejected by Israel. Christ's Return is prophesized to occur during the last world government that will be in place. Perhaps these Tetrad patterns and their historical corresponding events foreshadow the "Final Countdown". Based on the prior patterns, the Tetrad of 2014-15 might see Israel build the 3rd Jewish Temple, then go through similar intense persecution soon thereafter and the Return of the Messiah, Jesus Christ.

There are a total of 8 Tetrads (depending on the count) since Christ pertaining specifically to Israel's history that fall on consecutive Feasts of Passover and Sukkot. There are and have been Tetrads in other times, but these noted ones have corresponded to key historical events of significance for Israel. The number 8 represents the over and above perfect completion, the first of a new series, thus New Beginnings. It is associated with Resurrection and Transformation. The Bible declares that Jesus Christ rose from the dead on 'the first day of the week,' or the 8th day. It signifies the beginning of a New Era or order or like with Noah when 8 Souls passed through to the New World. Noah, the 8th person stepped out on to a New Earth to commence a New Order of beginnings. Perhaps the Tetrad of 2014-15 will see the fulfillment of the 3rd Temple and the long awaited 'New World Order' that those in power in the world will see to its completion through the economic, military and religious conglomeration of the world.

The Lunar Tetrads since Christ on a timeline reveal a unique pattern of years as each occurrence happens to fall on major Hebrew Feast dates. The count is based on the Solar 365 day cycle. The TETRADS from 795 to 1949 approximate a Phi Ratio as the 3 TETRAD clusters of 795-842-860 and 1949-1967-2014. The span of years has a unique '1948' designation that repeats and corresponds to the years from AD 70 to 2018 and the year that Israel became a nation on May 14, 1948. There are 175 Sabbaths from 795AD to 2015AD. In 2 occasions, there is a double '633' year count repeating exactly and 1089 year count, which is 33 squared. The clusters of the last TETRADS of 795-96, to the 1948 Tetrad appear to be 'bookends'. Both Tetrad clusters are equally counted off by a 19 and 48 years interval "1948" approximately. The seasons of Tetrads concerning Israel have been marred by tribulation, persecution, slaughter, war and exile of the Jewish Nation. The Jewish Nation was last in existence 1948 years from 70 AD to 2018 as many believe it is now the times of the End of Days.

PROPHETIC PATTERNS

Many End-Time Bible scholars speculate that these Lunar Tetrad configure a prophetic pattern related to Israel's destiny. The pattern is as follows. The modern establishment of Israel in 1948 started this 'countdown' to the 3rd Temple. The Tetrad of 1949-50 allowed for the sovereign nation of Israel to officially take up a United Nation's Seat in November 5, 1949.

After the Six-Day War of 1967, Israel re-captured the Old City of Jerusalem that included the Temple Mount; for the first time since AD 70. The Tetrad of 1967-68 saw the acquisition of the Jerusalem to be the capital of Israel thereafter. What is to follow is the rebuilding of the 3rd Temple that the Tetrad of 2014-15 may signify.

This pattern of Land-City-Temple mirrors the order in which, according to the Old Testament, Israel's 2 prior judgments occurred. The Temple was destroyed first, then the city and then the Diaspora occurred due to the rejection of the LORD's Prophets and chastisement. The 3rd and final exile, due to the rejection of Jesus as Messiah, as described by Jesus Christ in the Olivet Discourse in Luke 12 occurred on the 9th of Av when the Romans destroyed the Temple, City and exiled Israel amongst the nations of the world in 70 AD.

A CLUSTER OF 4 SEQUENTIAL TOTAL LUNAR BLOOD MOONS
A TETRAD is when 4 consecutive lunar eclipses are all total eclipses, the group is known as a TETRAD. What is of great significance is that these TETRADS have ALL fall on key Jewish Feast Days of Passover & Sukkot.

THE PHI RATIO

It is a geometric relationship when 2 quantities have a ratio the same as the ratio of their sum to the larger of the two quantities. This math principle can be depicted in the tiling of squares whose side lengths corresponds to the Fibonacci sequence: 1, 1, 2, 3, 5, 8, 13, 21, and 34, etc. A golden spiral will be created by drawing circular arcs connecting the opposite corners of the squares. The phi ratio is also called the golden section, the golden mean, the divine proportion, the divine section.
