

THE TRANSIT OF MERCURY

The purpose of this study is 2-fold in the since that several major celestial occurrence will highlight the Year of Light, 5776. The only Feast of YHVH that falls on an eclipse in 2016 is Purim on March 23, just after the Spring Equinox. More specifically it will be a Blood Moon although a Penumbral type. This celestial occurrence is based on the Jewish or Hebrew reckoning of time. The other major celestial event is the Transit of Mercury on the 9th of May in 2016. This event appears to initiate an amazing array of planetary alignments for the month of May. This Transit of Mercury does take place in-between Aries and the Pleiades. As to the Transit of Mercury, the planet Mercury has the fastest orbital duration around the Sun of all the known planets in the Solar System with only 88 days.

Date (mid-transit)	Start (UT)	End (UT)
2003 May 7	05:13	10:32
2006 Nov 8	19:12	00:10
2016 May 9	11:12	18:42
2019 Nov 11	12:35	18:04
2032 Nov 13	06:41	11:07

Purim begins in the Hebrew Calendar - Wednesday evening, March 23, 2016, and continues through Thursday night, March 24th. It will be the first full moon after the Spring Equinox as well. Based on where the Transit of Mercury occurs against the backdrop of the Cosmos, it can possibly lend a clue as to its prophetic significance. This Transit of Mercury occurs in-between the constellation of Aries the Ram and the Pleiades of Taurus.

HEBREW CALENDAR MAJOR FEASTS OF YHVH

- Purim* Mar 23, 2016
- 1 Passover Apr 22, 2016
- 2 Unleavened Bread Apr 24, 2016
- 3 First Fruits Apr 28, 2016
- 4 Shavuot Jun 11, 2016
- 5 Rosh Hashanah Oct 02, 2016
- 6 Yom Kippur Oct 11, 2016
- 7 Sukkot Oct 16, 2016
- Hanukah Dec 24, 2016

The Caduceus is where the dollar sign '\$' is derived from and in some versions there is a double bar signifying the double DNA helix as this motif of has 2 interwoven snakes and is used as the symbol of the medical profession. Many believe that in some form, this motif of the god Mercury will be the bases for the Mark of the Beast system. The Caduceus incorporates 2 of the prime elements that the Beast system will also be based on, the medical and financial records and a DNA biometric 'fingerprint'.

Other observations have to do with the span of time of the Blood Moon on Purim and the Transit of Mercury subject to the phi ratio of time. For example, the Blood Moon on Purim will be in approximate phi ratio to the Blood Moon of September 16, 2016 and the Transit of Mercury. The Jewish observance of Pentecost or Shavuot on June 11th will be exactly in-between the total solar eclipse of March 9, 2016 and the Blood Moon of September 15, 2016 with 66 days each span of time from Pentecost. The Transit of Mercury will be in approximate phi ratio to the Blood Moon of Purim near the Spring Equinox and the Jewish observance of Shavuot or Pentecost starting at sunset.
