Heber Springs, AR 72543
Monday – Friday
7am – 3:30pm
(501)-362-5554

Included in this packet is the City of Heber Springs Street and Sanitation Departments regulations on trash disposal, recycling, and yard waste pickup.

- **Residents are allowed 3 trash cans per week, and the maximum size per can that is accepted is 40-45 gallons.** This is approximately 3 large contractor bags, or about 8 (13) gallon kitchen trash bags on average. Any additional trash or large items is excluded from regular weekly pickup and will need to be priced separately by one of our employees.
- Residents must place their trash by the road by 7am the morning of trash pickup to ensure that it is not missed.
- All trash within each can **MUST** be bagged and have lids to prevent trash from being scattered.
- Recycling day is always the day after regular trash pickup, and must also be out by 7am to ensure pickup. We also do recycle electronics, please call for more information.
- Limbs, leaves, and grass clippings can be placed next to the road and will be picked up by the street department through a scheduled route. Please call beforehand to get an estimated time of when we will be in your neighborhood to prevent yard waste pickup from being prolonged. If you have already placed yard waste at the road, please give us a call to let us know you have.
- Limbs and brush clippings cannot be longer than 6ft or larger than 6 inches in diameter. Please be sure they are cut down to the correct size.
- Leaves and grass clippings need to be in a pile separate from the limbs and brush.
