

INDIVIDUAL & FAMILY DENTAL AND VISION INSURANCE

Take control of your total health with the right dental and vision insurance.

The mouth and eyes are important parts of your body and your health. They can show early warning signs of disease — so regular dental and vision checkups help you stay healthy. That's why taking care of your total health requires not just medical insurance, but also dental and vision plans.

It's important to take charge of your health. When you get your mouth and eyes checked every year, you're helping your whole body stay well.

When you're selecting a dental insurance plan, focus on choice, care, savings and convenience.
