

MARKET CRASHS

ECLIPSE CYCLES PATTERNS

New World Order Economy

*'Come now, you rich, weep and howl for your miseries which are coming upon you. Your riches have rotted and your garments have become moth-eaten. Your gold and your silver have rusted; and their rust will be a witness against you and will consume your flesh like fire. It is in the **last days** that you have stored up your treasure! Behold, the pay of the laborers who mowed your fields, and which has been withheld by you, cries out against you; and the outcry of those who did the harvesting has reached the ears of the Lord of Sabaoth. You have lived luxuriously on the Earth and led a life of wanton pleasure; you have fattened your hearts in a day of slaughter'. -James 5:1-6*

The purpose of this study is to present a synopsis of the topic dealt with the natural cycles of market crashes as they correlate to eclipses. Based on the patterns, the end of the America's economic hegemony over the world markets may be at hand or predictable of when the new economic World Order is to be initiated. The following synopsis is according to a simplistic interpretation of the transmission and content presented.

Based on the studies of Solar and Lunar Eclipse patterns, many have sought to discover their relationship as they pertain to the LORD's Feasts and the End of Days prophecies. As the Jewish calendar is primarily based off the lunar and solar cycles, it's incumbent upon students of End Times to heed the LORD's instructions regarding such signs and their timing. Why? It is because such an economic collapse will forge the next New World Order. According to the Book of Genesis, such celestial bodies as the Sun, Moon and Stars are markers set up by YHVH and are directly tied to specific scheduled events on Earth as it is in Heaven. It is no coincidence then that eclipses, comets etc., are signs such as the Tetrads for example. Such eclipses have been omens to the world in general but to Israel specifically.

It is no stretch of the imagination that therefore, this 'secret' of the solar and lunar eclipse cycles could also have a correlation to the economic cycles as they pertain to the rise and drop in world markets, i.e., the Market Crash Cycles. Secondly, a predominate number of those involved with the global stock market, specifically in New York and London are of Jewish background. This alleged secret knowledge of the Market Crash Cycle has been attributed to such that have manipulated the markets using a mathematical formula to predict such economic cycles as done by the Rothschilds for example. According to the author, Og Mandino, most New York money market investors use this knowledge and understanding to predict market repeating cycles that are based on ecliptic calculations.

Market Crash Cycles

In turn, fortunes have been made and maintained through investments based on this guarded knowledge. Is it a mere coincidence that the most recent 8 of the greatest market crashes have happened either 6 Days before a Full Moon or 3 Days after a Full Moon and within 6 weeks of a Solar Eclipse? According to a researcher Steve Pitts, the odds of these crash cycles to have occurred in this particular pattern have a chance in 1/127,000 of the time. This theory is not 100% reliable as the 1929 and the 1950 Crashes did not follow this Market Crash Theory precisely. Nonetheless, the 8 major market crashes since 1990, have thus far been the following.

1. 1990 – *Tokyo Crisis*
2. 1997 – *Asia Crisis*
3. 2000 – *NASDAQ Crisis*
4. **2001 – *Fall Panic 9-11 attacks 7% drop***
5. 2007 – *Market Crash*
6. **2008 – *Rosh HaShana Crass 7% drop (777 points)***
7. 2009 – *Spring Crisis*
8. 2011 – *Debt Ceiling Panic*
9. **2015 – *End of Sabbatical Cycle economic reset***
10. **2022 – *The next one is to occur might very well be the New World Order***

Another researcher and author that studied such ecliptic patterns and market cycles was Ralph N. Elliott. He wrote a key piece in 1946 entitled Nature's Law -The Secret of the Universe. Due to his work, the mathematical calculation used to calculate the money markets was called the Elliott Wave Theory. At that time, the New York money establishment put up much resistance against Elliott's findings and subsequent publications. The New York Stock Exchange investors do not want the masses knowing about such knowledge of this Market Crash Cycle that so far, has accurately predicted the major stock Market Crash Cycles.

This Market Crash Theory was further developed by the professor, Steve Pitts who is an expert on cycles. He studied the conditions that are needed for a major money market crash to occur. Pitts primarily used the Unified Cycle Theory that basically postulates that events influence life here on Earth and not the other way around. Based on this Unified Cycle Theory along with some Spectra-Analysis mixed into the calculations, it was determined that there is definitely a pattern as it pertains to Money Market Cycles and certain correlating eclipses. The last 8 major market crashes do follow a pattern that is particularly tied to Moon and eclipse cycles.

Primarily, these market cycles come in either 2's or 3's or multiples of 3. For example, a mathematical matrix was presented that uses the multiple of 3. These year-date cycles can be verified as to pertaining to cycles in human history that correspond precisely to the matrix, at least mathematically..

2.12 Year Cycle

x 3 = 6.36 Year Cycle

x 3 = **19.1** Year Cycle = **CYCLE OF MARKETS** - Crashes & Panics

x 3 = 57.3 Year Cycle

x 3 = **171.9** Year Cycle = **CYCLE OF WARS** Major - Conflicts

x 3 = **516** Year Cycle = **CYCLE OF CIVILIZATIONS** - end

Based on the theories presented by the mentioned researchers, it has been postulated that the Full Moons do affect the Stock Market and/or economic cycles. Obviously, there are no 'crashes' on every Full Moon. For a 'Crash' to occur, there has to be certain astronomical conditions that have to be in place associated specifically when it comes to the cycles of eclipses. But what is significant to note is that the Market Crash Cycles have been found to have the following conditions related to the Moon.

1. *Rise before a Full Moon*
2. *Drop after a Full Moon*

What is so significant about the eclipses, as they pertain to market crashes? According to the researchers already mentioned, it is believed that the eclipses block certain degrees of the Sun's radiation that affects the Earth's magnetic shield. This shield is what protects the Earth from the deadly effects of the Sun's radiation. On an aside note, some scientists have discovered a massive hole in the shield currently that is attributed to increasing solar flares. Furthermore, such research has also postulated that mankind's responses, behavior, and decision-making is somehow affected by this magnetism.

The researchers also concluded that not on every market crash will occur on an eclipse. Given the potential for having 2 eclipses per year, even this cycle of eclipses does not always occur either. According to the research of such eclipse patterns, thus far, it has only been about once every 10 years that a market crash has correlated to an actual eclipse pattern. In particular the most notable years that the markets did have a direct eclipse correlation were the following that exactly match the Biblical Sabbatical Cycle.

1. **1997** Crash + 7 Year Cycle
2. **2001** Crash + 7 Year Cycle
3. **2008** Crash+ 7 Year Cycle
4. **5776(?)** *The Year of Lucifrr?*
5. **2022** *Start of New World Order?*

Market Crash Pattern

As it relates to the economic world markets, the greater the exposure to the radiation or geomagnetic fields, the greater degree humans make decisions based on risk. It is theorized that both a Full Moon and a Total Solar Eclipse have this same effect on Humanity-as both are either directly or most closely lined up between the Sun and the Earth. One additional author and researcher mentioned in the discussion was that of Chris Carolan.

He has further taken the Market Crash Theory and has postulated that not only do market crashes occur subsequent to eclipses but that the market crashes, when they occurred, all ended on the same Lunar calendar date such as Rosh HaShanah. Part of the condition that also has to be in place, aside from the eclipse pattern, is that an economic or market 'bubble' has to accompany the ecliptic cycle as well. The following is the pattern that will most likely lead to a Market Crash Cycle according to the researchers. The conditions that have to occur for a market crash to happen are the following.

- 1. The 'Topping' in the markets will occur, leading up to a Full Moon 1 month before a Solar Eclipse. This will happen anywhere within the 13-15th of a month.*
- 2. A 'Panic' or drop in the markets will ensue that will seem like a 'crash.' It can occur within the 6 days before the Solar Eclipse but can occur afterwards.*
- 3. A 'Rally' will ensue for about 2 weeks after the Solar Eclipse that will lead up to a Full Moon.*
- 4. The 'Crash' will happen within the 3 days after the Lunar Eclipse occurs that accompanies the Solar Eclipse but can occur after that time as well.*

Here you have some interesting number patterns already. You have a **13-13-13** number sequence in the 2-month period of a speculated market crash. You also have a date of October **31 and the 13** of November number sequence that 'mirrors' each other as does the **9-11** with the November 9 or **11-9** corresponding to the US Presidential Election date. As this theory of the Market Crash Cycles cannot be 100% reliable, there can also be an alternate cycle sequence that might occur way before the forecast, as it was in 1929.

It is interesting that the U.S. elections fell on November 6 in 2012. When writing the date numerically, it can be written as 11-6 which is a mirror of 9-11. Perhaps it is also a contributing factor in the anticipated U.S. and subsequent world economic collapse to come based on the number association that echoes the 9-11 anniversary. It is no big secret that the U.S. economy is in dire straits. The Obama Administration has failed to significantly generate jobs for the USA. The only 'redistribution' he has undertaken has been the redistribution the tax-payer's hard earned incomes to Auto Makers and to the Banksters from Wall Street.

A World on the Economic Brink

It has been these Money Changers in the 'Temple' of Wall Street that have used this Market Crash Cycle against the average American to rob them of houses, property, bank accounts, savings and retirements. The only other 'redistribution' Obama has undertaken is to redistribute more Food Stamps among the growing number of unemployed Americans. Currently, there are over 52 million Americans on Food Stamps alone. Many Bible researchers hold a belief that the Luciferians that control the world economy and Wall Street in these Last days will use this coming Market Crash Cycle to perhaps inevitably implode the USA-Europe dominated world economy to make way for their New World Order NWO. This is no big secret; the U.S. President Bush I speech to Congress declared such a quest on September 11, 1991.

911 with 1991 = 911-1-991 sequence if 9=1 & 1=9

Interestingly, from the declaration to initiate the NWO on September 11, 1990 by the 1st Bush (Magog) to the attack on the Twin Towers on September 11, 2001 during the 2nd Bush (Gog) is 11 years. Then from the 9-11, 2001 Attack to September 11, 2012 is the 11th Year Anniversary, a 11-11 numerical sequence order. Perhaps this coming Market Crash Cycle will be the 'one' to thus usher in the beginning of the actual NWO economic reset, or the need for one as the world will be plunged into intense economic chaos of the likes of the Weimar Republic in Germany that led to World War 2.

During that time of economic collapse in Germany, 1 pound of bread cost 3 billion Marks. America is currently witnessing such a possible repeat of history through an orchestrated combined world market crash of the Euro and U.S. Dollar and by Middle East wars fueled with religious hatred of Jews and Christians that especially erupted since September 11, 2001. The Market Crash Cycle scenario presented could well start the next major world Market Crash Cycle. Some speculate that the 'Crash' will be starting in mid-September of 2015. Others theorize that the 'Trigger' for the 'Crash' may well start in 5776 but that it can send shock-waves of depression across the world.

What has kept the U.S. Dollar afloat for decades is that the world pays for its oil in the current World Reserve Currency which is in U.S. Dollars; thus called the Petro Dollar. If this arrangement would not be the case, the Federal Reserve printed fiat Dollars would be worthless. Presently, other countries have elected to purchase oil with their gold or domestic currencies. If this trend continues and more countries of the world abandon the U.S. Dollar, it will spell certain doom for the current economic status-quo dominated by the Private Federal Reserve. A new 'world reserve currency' will have to be implemented and soon.

With the Greek Euro in shambles and other EU nations like Spain, Portugal, Italy and Ireland (P.I.I.G.S.) on the brink of economic bankruptcy, the crash of the Euro will ensure a subsequent crash of the U.S. Dollar soon to follow thereafter. Other factor could have nations like China, Russia and Brazil trade in local currencies and have dumped the U.S. Dollar. The Federal Reserve can only temporarily keep lending money to the U.S. Government as it has bought most of the mortgage debt. This conjecture is part of the 'perfect economic storm' lurking over our immediate economic world horizon.

If the scenario pans out, there will be a need for a New World Economic Order that is precipitated by a New Political Order and why not throw in a New Religious Order for that much, as most of the Christians will be have disappeared by then, i.e., the Rapture. The next New World Order economy will require such an implosion on all major fronts. The current 'Old Order' will need to make way for the new economy, politics, and religion to come to fruition. It is only a matter, of not if, but when the Euro and U.S. Dollar will collapse and when the Rapture of the Christians is to occur that this study suggests could coincide.

*'Do not store up for yourselves **treasures on earth**, where moths and vermin destroy, and where thieves break in and steal. But store up for yourselves treasures in heaven, where moths and vermin do not destroy, and where thieves do not break in and steal. For where your treasure is, there your heart will be also'. - Matthew 6:19-21*

Some speculate that the Rapture itself could be the 'Trigger' to start all this too. Perhaps indeed, this next up-coming solar eclipse cycle period will be the 'Trigger' in more ways than one. This study is fusing the eschatological perspectives of the End of Days suppositions with the theory of the Market Crash cycles based on astronomical eclipses. Perhaps certain key events that will take place within the year of Lucifer, 5776 that could be the catalyst to start this 'Panic' cycle.

Perhaps this coming world economic panic could be a result of a regional or world war conspired by the USA-Israeli led coalition of world military's poised to declare Martial Law in Battlefield USA. Perhaps Israel will strike Iran. Or it could be an Islamic militant Jihadist coalition in league to attack Israel and the West. If the world is indeed on the precipice of an imminent world economic collapse and world war, then perhaps YHVH's People are on the verge of the imminent Rapture event that could also be a variable in the panic to come due to the conclusion of the Church Age perhaps culminating in 5776, a year of release as a countdown to the last one to come in 2022.

Perhaps, as the Church Age is really going to come to an end of its Gospel Commission is finished, the spiritual harvest of the Church will occur as its fruit is now mature; as the Bride has made herself ready for the King to be presented. According to the Bible, immediately following the Rapture there will be the Bema Seat evaluation of a Disciple's works. While on Earth, Christ taught His Disciples to be aware of the type of fruit one would bare because one would be eventually evaluated by it and all that was invested from the Talents or gifts given by the King.

Spiritual Investments

It will not be a judgment against sins because sin was paid on the Cross of Calvary nearly 1980 years ago by Jesus and sin was buried in His body as He physically died. The Resurrected LORD has only rewards now to distribute from the Bema Seat. We know this because the Bible states that He has given the Holy Spirit as a token or down-payment to His Church and Talents to individuals for the edification and investment to others until His Call to 'Come Up!' is shouted out. Christ's Disciples can only imagine of what other gifts He has in store for those that love and wait on His appearing.

Thus, Christ's Commission to the Church in general and to individuals calls for a spiritual inventory of what the LORD has invested in His Disciples. Has His Church and His Disciples been faithful? Some have been and some have not been faithful with their Talents and spiritual investments. At the end of the day, figuratively speaking, it will not be how much gold or silver one amassed to offset any Market Crash Cycle or hyper-inflation, or how much one has in the bank account or retirement, or how much canned food is stored up for Doms Day.

What will matter in the coming months, if not years will be the strength and the resilience of a Disciples' faith in Jesus' Promises as those before had during tough times. If the LORD tarries any longer, most Christians in the West that have not experienced persecution to the levels as most Christians in the rest of the hostile Muslim world for example will need fortitude and resilience that can only be found in Jesus Christ. The Bible promises that Heaven is a secure place where nothing gets stolen and any investments are secure in the 1st Bank of Paradise.

Christ's People must be found worthy of the 'Talents' the LORD has invested in His People. GOD's People have to have a plentiful return that can testify of the effect it has had on others by the LORD working through them. Despite the dark days that are prophetically coming economically; of Lucifer's New World Order that is upon the world, may the Church of Jesus Christ be found having had put her investments in 'spiritual commodity' which is the LORD Himself and His Great Work.

*'But the worries of the world, and the **deceitfulness of riches**, and the desires for other things enter in and choke the word, and it becomes unfruitful.'* **-Mark 4:19**
