Controlled Substances Therapy Agreement.

The purpose of this agreement is to protect your access to controlled substances and to protect our ability to prescribe for you.

The long-term use of such substances as opioids (narcotic analgesics), benzodiazepine tranquilizers, barbiturate sedatives, stimulants, appetite suppressors is controversial because of uncertainty regarding the extent to which they provide long-term benefit. There is also the risk of an addictive disorder developing or of relapse occurring in a person with a prior addiction. The extent of this risk is not certain.

Because these drugs have potential for abuse or diversion, strict accountability is necessary when use is prolonged. For this reason the following policies are agreed to by you, the patient, as consideration for, and a condition of, the willingness of Dr. Osipchuk, whose signature appears below, to consider the initial and/or continued prescription of controlled substances to treat your condition.

1. All controlled substances must come from the physician whose signature appears below or, during his absence, by the covering physician, unless specific authorization is obtained for an exception. (Multiple sources can lead to unwanted drug interactions or poor coordination of treatment).
2. All controlled substances must be obtained at the same pharmacy, where possible. Should the need arise to change pharmacies, our office must be informed. The pharmacy that you have selected is:
(Pharmacy Name & Phone Number): _____
3. You are expected to inform our office of any new medications or medical conditions, and of any adverse effects you experience from any of the medications that you take.
4. Dr. Osipchuk has your permission to discuss all diagnostic and treatment details with dispensing pharmacists or other professionals who provide your health care and you give permission to check your prescription history on Tennessee PMP Web Center and similar databases for purposes of maintaining accountability.
5. You may not share, sell, or otherwise permit others to have access to these medications.
6. These drugs should not be stopped abruptly, as an abstinence syndrome will likely develop.
7. Unannounced urine or serum toxicology screens may be requested, and your cooperation is required. Presence of unauthorized substances may prompt referral for assessment for addictive disorder.
8. Prescriptions and bottles of these medications may be sought by other individuals with chemical dependency and should be closely safeguarded. It is expected that you will take the highest possible degree of care with your medication and prescription. They should not be left where others might see or otherwise have access to them.
9. Original containers of medications should be brought in to each office visit.
10. Since the drugs may be hazardous or lethal to a person who is not tolerant to their effects, especially a child, you must keep them out of reach of such people.
11. Medications may not be replaced if they are lost, get wet, are destroyed, left on an airplane, etc. If your medication has been stolen and you complete a police report regarding the theft, an exception may be made.
12. Early refills will generally not be given.
13. Prescriptions may be issued early if the physician or patient will be out of town when a refill is due. These prescriptions will contain instructions to the pharmacist that they not be refilled prior to the appropriate date.
14. If the responsible legal authorities have questions concerning your treatment, as might occur, for example, if you were obtaining medications at several pharmacies, all confidentiality is waived and these authorities may be given full access to our records of controlled substances administration.
15. It is understood that failure to adhere to these policies may result in cessation of therapy with controlled substance prescribed by Dr. Osipchuk .
16. Renewals are contingent on keeping scheduled appointments. Please do not phone for prescriptions after hours or on weekends.
17. It should be understood that any medical treatment is initially a trial, and that continued prescription is contingent on evidence of benefit.
18. The risks and potential benefits of these therapies are explained to you and you acknowledge that you have received such explanation.
19. You affirm that you have full right and power to sign and be bound by this agreement, and that you have read, understand, and accept all of its terms.
20. To satisfy the *Tennessee Prescription Safety Act of 2012* I give Dr. Osipchuk my permission to review my records ongoing, on the TN State Controlled Substance website.

**Dr. Oleksandr Osipchuk, MD, PhD
Psychiatric Services, LLC
Authorization for Electronic
Communication and TeleMedicine.**

I understand that Oleksandr Osipchuk, MD, PhD LLC, has the ability to provide me with a TeleMedicine visit from my home or from the office location at 430 West Main Street, Lebanon, TN.

I understand the following:

1. The video connection may not work or that it may stop working during the appointment.
2. The video connection used is secure and HIPPA compliant.
3. This is considered a regular appointment and you will need to pay your copay/deductible/balance before the visit.
4. You may need to come to the office to pick up prescriptions.
5. This may not be used for your first visit with the doctor.
6. In order to use this system from home we need a current email address to send the proper link and a computer with a web camera or a cell phone with a web camera.
7. If the link doesn't work from your home because of internet or computer limitations you will need to come into the office, our staff is not able to help you set up your PC.
8. You will need to check in 10 minutes before your appointment.
