

We are back in the Sunshine state and thought you might enjoy some of the great pictures we took while in Estonia.

Estonia (at least Tallinn the capital) was fantastic. We were hand carried everywhere. Ate at the best places, and taken to the best sites. The whole trip was paid for, plus salary, so we had no worries except, not fall on our faces in front of a thousand plus, people. Which I am happy to say, by the grace of God we did not. Sure it was cold at times, but we were dressed for it, and it was a nice change. What cold weather we had was just enough to say we had some. Two days after we left, they got a huge snow storm.

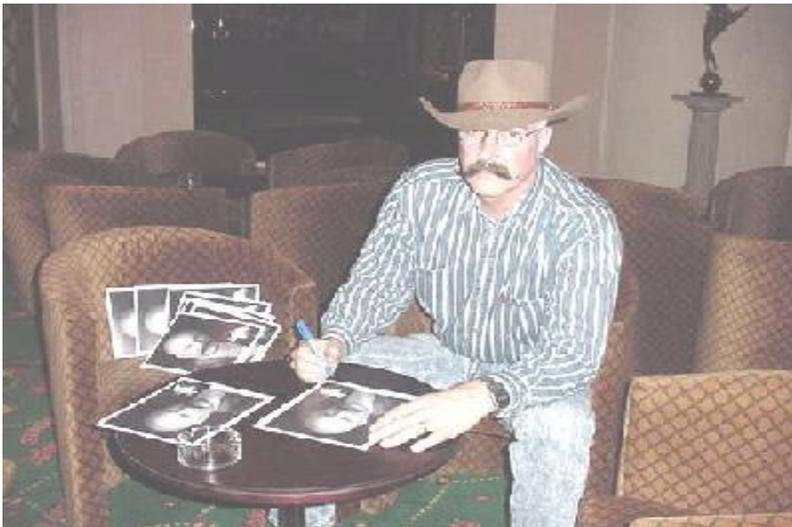

Monika and I performed a knife throwing and bull-whip act at the Astoria Palace. It was a 75th anniversary Gala, "by invitation only". All the acts prior to ours, told the story of the Palace theater, from 1926 to date. This lead up to the Grand Finally, which was our performance. We represented the first of the NEW acts that they will be bringing from all over the world to the theater. Monika and I were highly praised for the performance we gave. Shortly after that we were off to do another show at "Decolte", the largest nightclub in the country. The day before all this, we were on Estonia's most popular TV show and interviewed by all the papers at a press conference.
