Jeffrey John (Weight loss with SunTrim® Plus)

I like to try new Sunrider® products, so when SunTrim® Plus was introduced I ordered a bottle. The first day, I took SunTrim® Plus before breakfast and within two hours I had more energy. The next thing I noticed not being hungry for a snack later in the morning.

Before lunch, I had more SunTrim® Plus and the rest of the day I was not looking for something to snack on. By the time the bottle was empty, my pants were a little looser around my waist. I ordered another bottle and before it was even gone my weight went down seven pounds.* I was pleasantly surprised and did not expect any of that. SunTrim® Plus has added another dimension to my health I never expected.

**In conjunction with a healthy diet and regular exercise. Results not typical.*
