

THE ORIGINAL BAMBI BUCKET

THE WORLD STANDARD IN AERIAL FIREFIGHTING

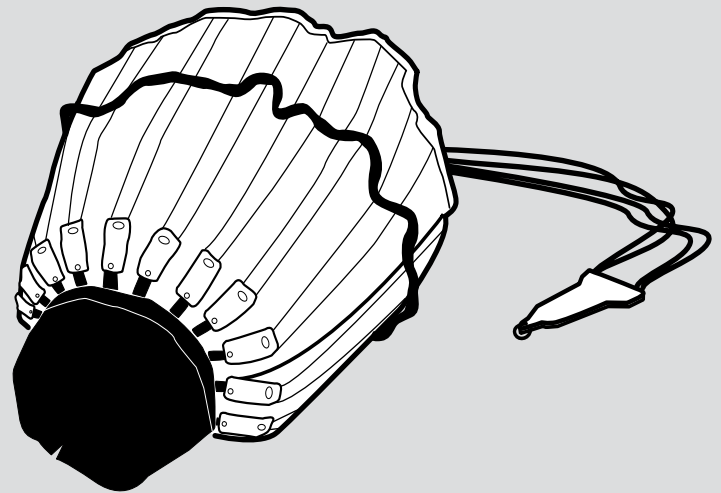

SEI
INDUSTRIES

Launch highly-efficient precision attacks against fires by equipping your helicopter with the Bambi Bucket®. This tough, lightweight product delivers a solid column of water or foam – on target, every time.

The Bambi Bucket reinvented aerial firefighting for helicopters with its full collapsibility and accurate water drops!

FEATURES

- Provide highly cost-effective water delivery
- Offer compact, lightweight and portable convenience
- Designed for maximum durability and strength
- Offer variable fill capability, bottom-fill and foam injection systems
- Offer fast fill and shallow water capability
- Provide pilot-controlled dump patterns
- Feature a dump valve that opens instantly

The Bambi Bucket is available in a range of capacities from 72 USG (270 L) to 2600 USG (9840 L). The Bambi Bucket product line now offers more than 20 different sizes, ranging from its smallest (a Robinson R44 bucket) to its massive 2,600 US gallon version.
