

PRODUCT SPECIFICATION SHEET

Description

- Tire Life® is a specially formulated, light viscosity fluid that provides exceptional tire and rim protection when installed in a tire air chamber in the recommended quantities.

Benefits

- Provides excellent performance in mining, construction, agricultural, and over the road tires.
- Protects tire inner liner from degrading.
- Protects wheels/rims against rust scale and pitting.
- Improves air retention.
- Reduces heat build-up in tires.
- Decreases labor time for tire mounting/dismounting.
- Safely identifies cracks in rims.
- Freeze/thaw stable.

Available Formulas

- Regular/OTR
- High Temp
- All Weather
- Arctic

Available Packaging

- 20-ounce bags/.59 liters
- 1-gallon jugs/3.78 liters
- 6-gallon pails/22.71 liters
- 55-gallon drums/208.19 liters
- 275-gallon totes/1040 liters
- 330-gallon totes/1249 liters

Freeze Point

- Varies by formulation from 25°F/-3.5°C to -18.5°F/-28°C

Limitations

- Not for use in passenger vehicles.
- Do not mix with other additives.
- Call to discuss TPMS compatibility in OTR applications.
- Shelf life 20 years.
