9. The rider may complete the course in either direction, proceeding right to left OR left to right.
10. The dimensions of the box are 30 Feet Square, with a 20 Foot Center Line.

### INSTRUCTION TO THE JUDGES

It is not the intention of the IASMC to tell the judges how to appraise each unit for the scores they think it is entitled to or has lost because of something they see. We believe that a unit should not be discounted because of minor chips in paint or bluing of exhaust pipes, so long as they are polished and neat. This could happen to a motor just coming to the drill field. If it is their desire to award the unit all points it is allowed, then they will leave the space blank. However, if they wish to discount a unit points, they will put down only the amount they want to penalize the unit for each part on the score sheet. A penalty of 1/10 of a point per violation will be given on inspection.

Deducting points for each mistake made on the field as per the score sheets will score riding competition. Three judges will be used and scores will be averaged and deducted from 100. This is the score for the participant. It is not the desire of IASMC to interfere with the nomenclature or types of maneuvers that a unit performs. The number of maneuvers (other than required) is counted as an objective count of variety. The highest number of optional maneuvers performed in each classification is used as the denominator for each other unit in the classification and that number multiplied by ten (10) determines the Score for Variety. These calculations are automatically made by the scoring spreadsheet.
