

**NEW HANDLE FOR  
STRAIGHTER POWER LINE!**

**A'macnee**

This is the new bow designed for the instinctive or free-style field shooter who use a high-field anchor, as the window is one inch shorter than the customized Amarco Target Model. Made in two lengths. Men's Model: 66" for 26" to 29" draws, 33-70 lbs. Women's Model: 64" for 24" to 26" draws, 25-33 lbs.

only  
**\$62.50**

**Customized  
AMARCO  
HUNTING MODEL**

Flawless workmanship, beauty and rigid standard of perfection. Designed to carry a heavier arrow to provide smooth power for successful hunting. Sure to satisfy the most exacting hunter, 64" length for 26" to 29" draws from 30 to 70 lbs.

only  
**\$62.50**

**NEW GRIP**

This is now standard on all four high-end models. This new handle is especially designed for either orthodox or pistol grip shooting styles.

**FUNCTIONAL**  
Handle design seats your hand properly for every shot.

**AMERICAN Matched Arrows**

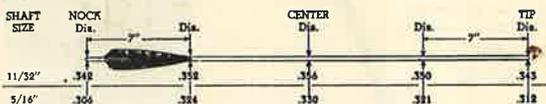

**"MICRO-BARRELED" TAPERED CONSTRUCTION**

Although scarcely noticeable to the eye, these arrows are tapered at both ends as shown on the chart below. It gives them better balance so you can shoot straight and true.

**"AMOLAC" PROTECTED AGAINST WARPING**

Our special synthetic coating prevents moisture from penetrating and causing warpage. Your arrows have up to 50% longer life!

This chart shows in THOUSANDTHS OF AN INCH diameters how AMERICAN "MICRO-BARRELED" shafts are tapered at the front and rear ends for better performance . . .

**"SUPER-STANDARD" SPINE AND WEIGHT MATCHING**

These arrows are matched in stiffness (spine) on our "SUPER-STANDARD" spine tester to give them extra stiffness necessary for today's modern glass and composite bows. In addition, every arrow in this set has been weight matched within a few grains to give you arrows as closely matched as possible!

American carries the most complete all-purpose line of quality arrows on the market today. Spined and weight-matched field grade arrows from \$9.75 to \$14.95 per dozen. Easton tubing is used in metal arrows and American carries the finest line of tubular glass arrows from \$19.95 to \$25.00 per dozen. American also carries Forge-wood arrows at \$19.50 per dozen.

### Flash

Here is the perfect second bow for those who prefer the straight-end, reflexed limb bow with punch and power. 25 to 60 lbs. in draws of 26", 27" and 28".

only  
**\$24.50**

### Kit Kat

This newcomer combines all the power and accuracy of the hunting and field archery models, to give you a dual purpose bow at a moderate price. 64" draws 26" to 29". From 30 to 60 lbs.

only  
**\$37.50**

### TOURNAMENT Cheetah

A favorite of instinctive as well as free-style archers. An exceptional value for the archer desiring topnotch performance and dependability for the least possible cost. 68" for draws of 27", 28" and 29". From 35 to 70 lbs.

only  
**\$57.50**

### CUSTOMIZED Amarco

Finest bow made by American and is probably the best in the country. This top performing bow is made in three lengths. 66" for draws of 25", 26" and 27"; 68" for draws of 27", 28" and 29"; and 69" for draws of 29" and 30". From 35 to 60 lbs.

only  
**\$72.50**

### COMBINATION Cheetah

For those who want the best in field or forest choose this fine bow. Center-shot design, shorter window, light weight and powerful. 64" and 62" lengths for draws of 27", 28" and 29", and from 35 to 70 lbs.

only  
**\$49.50**

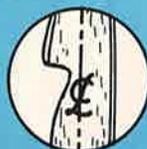

**WIDE LIMBS**  
and tips prevent drawing out of line when shooting.

**OVERDRAW**  
enables you to use a shorter arrow.

**SHELF**  
and window designed for minimum arrow resistance when leaving the bow.

**LIMBS**  
run parallel through center of handle to stop handle twist.

**CENTER SHOT**  
increases cast and accuracy of any arrow.
